II.2. Scope of the procurement

II.2.1. Total quantity or scope

The contracting authority wishes to enter into an agreement with a supplier for managed security services, which includes the following basic services based on suitable tools:

- Surveillance and monitoring
- Threat detection
- Incident Response Management
- Analysis
- Security testing
- Digital threat intelligence
- Integrations
- Vulnerability detection
- Vulnerability control
- Consultancy services.

The contracting authority wants to enter into an ongoing service agreement which in principle is not limited in terms of time. The scope of the services may vary during the agreement period, depending on, among other things, annual allocations. Purchasing consulting services will also vary in accordance with needs. The vulnerability detection and control will be options. Estimated value excluding VAT: 40 000 000,00 NOK

II.2.2. Information about options

Options: yes

Description of options: See the qualification documents chapter 2. This will be further specified in the tender documentation.

Provisional timetable for recourse to these options:
in months: 108 (from the award of the contract)

II.2.3. Information about renewals

This contract is subject to renewal: yes

Number of possible renewals: 7

In the case of renewable supplies or service contracts, estimated timeframe for subsequent contracts:

in months: 12 (from the award of the contract)

II.3. Duration of the contract or time limit for completion

Duration in months: 36 (from the award of the contract)

Section III: Legal, economic, financial and technical information
