Section IV: Procedure

IV.1. Type of procedure

Negotiated without publication of a contract notice

Justification for the award of the contract without prior publication of a call for competition in the Official Journal of the European Union

Directive 2009/81/EC

1) Justification for the choice of the negotiated procedure without publication of a call for competition in accordance with Article 28 of Directive 2009/81/EC

All tenders submitted in reply to an open procedure, a restricted procedure or competitive dialogue were irregular or unacceptable. Only those tenderers were included in the negotiations which have satisfied the qualitative selection criteria: no

The periods for the restricted procedure and the negotiated procedure with prior publication of a contract notice are incompatible with the urgency resulting from a crisis: no

Extreme urgency brought about by events unforeseeable by the contracting authority/entity and in accordance with the strict conditions stated in the directive: no

The contract concerns research and development services other than those referred to in Article 13 of Directive 2009/81/EC: no

The products involved are manufactured purely for the purpose of research, experiment, study or development under the conditions stated in the directive: no

Additional deliveries by the original supplier ordered under the strict conditions stated in the directive: yes

Procurement of supplies quoted and purchased on a commodity market: no

New works/services, constituting a repetition of existing works/services and ordered in accordance with the strict conditions stated in the directive: no

Contract related to the provision of air and maritime transport services for the armed forces of a Member State deployed or to be deployed abroad, under the strict conditions stated in the directive: no

This contract concerns additional deliveries by the original supplier which are intended as a partial replacement of existing supplies where a change of supplier would oblige FMV to acquire material having different technical characteristics which would result in disproportionate technical difficulties in maintenance.
