## Section II: Object

---

### II.1. Scope of the procurement

#### II.1.1. Title

Residual waste for energy utilisation  
Reference number: 04/2023

#### II.1.2. Main CPV code

90500000 Refuse and waste related services

#### II.1.3. Type of contract

Services

#### II.1.4. Short description

There are two (2) contracting authorities that are holding a joint contest for residual waste for energy recovery: Trondheim Renholdsverk AS and Fosen Renovasjon IKS. One contract will be signed per contracting authority.

The contracting authority would like to increase the degree of material recycling and is cooperating with several waste companies in central Norway on the development of a central post-sorting facility for residual waste in the region (SESAM). The goal is that the SESAM post-sorting facility will be ready in 2026/2027. The contract period is adapted to a possible start-up of this facility. The contract period will apply from 01.06.2023 - 31.05.2026, with a unilateral option for the contracting authority for an extension for 1+1 year. There is a 3 month notice clause in the option year. The tenderer will be continually updated on the process and start-up of the facility.

#### II.1.5. Estimated total value

Value excluding VAT: 180 000 000,00 NOK

#### II.1.6. Information about lots

This contract is divided into lots: no

### II.2. Description

#### II.2.2. Additional CPV code(s)

90510000 Refuse disposal and treatment, 90513000 Non-hazardous refuse and waste treatment and disposal services, 90514000 Refuse recycling services

#### II.2.3. Place of performance

NUTS code: NO060 Trøndelag

NUTS code: NO06 Trøndelag

#### II.2.4. Description of the procurement

The contracting authority would like to enter into a framework agreement for the reception and final treatment of residual waste to energy recovery. If a re-loading location is required, the transport to a final treatment plant must be stated in the proposed solution and price. The waste is delivered by the contracting authority to the tenderer's suitable designated location. The stated place, reception, or re-loading facility must be maximum 15 km in a radius from the estimated central point of Trondheim, Lerkendal Stadion (Klæbuveien 125).

The waste subject to treatment is residual waste with a quality that is normal for waste from households and holiday cabins. The waste mainly includes residual waste after being source sorted and collected in bins, containers, and waste suction from the households. The following

fractions are currently source sorted; residual waste, paper/cardboard/cartons, glass and metal packaging, hazardous waste, and plastic packaging. Furthermore, food waste and the collection scheme for glass and metal packaging will be rolled out at all subscribers in Trondheim Municipality. Fosen Renovasjon IKS already has this sorting in place.

#### **II.2.5. Award criteria**

Criteria below

Quality criterion - Name: Environment / Weighting: 30%

Price - Weighting: 70 %

#### **II.2.6. Estimated value**

Value excluding VAT: 180 000 000,00 NOK

#### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Start: 01/06/2023 End: 31/05/2026

This contract is subject to renewal: no

#### **II.2.10. Information about variants**

Variants will be accepted: no

#### **II.2.11. Information about options**

Options: yes

Description of options:

Unilateral option for the contracting authority for 1+1 year.

3 months notice in the option year due to SESAM post-sorting facility.

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

#### **II.2.14. Additional information**

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Qualification requirements

Tenderers must be registered in a company register, professional register or a trade register in the country where the tenderer is established.

Documentation Requirement

Foreign companies: Verification that the tenderer is registered in a company register, professional register or a trade register in the country where the tenderer is established.

The certificate must not be older than 12 months from the tender deadline.

##### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Qualification requirements

Tenderers must have the financial capacity to carry out the assignment/contract. Tenderers are required to be credit worthy, have satisfactory liquidity and solidity, and a minimum score of A or equivalent.

#### Documentation Requirement

Credit assessment based on the most recent accounting figures. The credit rating must not be older than 3 months. The rating must be carried out by a credit rating company with licence to conduct this service.

Minimum level(s) of standards possibly required:

Minimum of A or equivalent.

### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

#### Qualification requirements

Tenderers are required to have a quality assurance system.

Documentation:

Documentation of the quality assurance system.

An account of the tenderer's existing routines and documentation that the requirement for a quality assurance system/management system applicable for the assignment is covered. If this is described in the tenderer's quality assurance system, in accordance with ISO 9001 or equivalent, documentation of this can be enclosed.

#### Qualification requirements

Tenderers are required to have an environmental management system.

Documentation:

Documentation of an environmental management system.

An account of the tenderer's existing routines and documentation that the requirement for an environment management system applicable for the assignment is covered. If this is described in the tenderer's environment management system, in accordance with ISO 14001, EMAS, Eco-Lighthouse or equivalent, documentation of this can be attached. If a tenderer does not have an environment management system, the tenderer must be willing to implement one within 6 months of the contract being signed. This must be documented in writing.

#### Qualification requirements

Tenderers are required to have a certified facility or deliver to a certified reception and final treatment facility for the stated fractions.

Documentation:

Tenderers must attach all certified concessions/permissions for transport and treatment of the stated fractions.

#### Qualification requirements

Tenderers must have experience from similar contracts

Documentation:

Fill in annex 08. A description of the three most relevant equivalent deliveries in the last three years. Including information on the value, date and recipient (name, telephone number and email address). The contracting authority must be given the authority to contact the person in question. The references will only be contacted if required.
