Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

Option I

Asset management system

Option II

Consultancy services within EMM

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Requirement: Tenderers must be a legally established company.

Documentation: Norwegian companies: Certificate of Business Registration

Foreign tenderers: Verification that the company is registered in a trade index or a register of business enterprises as prescribed by the law of the country where the company is established.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Requirement: Tenderers must have sufficient economic and financial capacity to fulfil the contract.

Documentation: The company's last Annual Financial Report including notes, the Board's Annual Reports and Audit Reports, as well as new information of relevance to the company's fiscal figures.

The contracting authority reserves the right to obtain credit ratings on its own initiative.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Requirement: The tenderer shall have experience from similar assignments.

Similar assignments means a single customer ordering more than 750 mobile phones per year, with multiple organisational units and locations, and different needs

Documentation: A short description of the most important deliveries in the last three years, including information on the contract's value, delivery date, number of delivery places and the name of the contracting authority, as well as a description of the content of the assignment.

Requirement: Tenderers must have a quality assurance system adapted to the content of the contract.

Documentation: A description of the tenderer's quality assurance methods

Alternative: Certificate for the company's quality system/management system issued by independent bodies which certify that the tenderer fulfils certain quality assurance standards, for example ISO 9001:2015.

Requirement: A quality assurance system must be established which ensures that the tenderer is suitable to fulfil the contractual obligations regarding environmental regulations (see contract point [6.5]).

This means that the tenderer must have methods for working actively and systematically on reducing negative environmental impact from the activities related to the implementation of this contract.

Documentation: A description of the tenderer's environment management measures. If a tenderer has certificates from independent bodies that can substantiate an established environmental management system, certificates thereof can be presented as documentation. The contracting authority here refers to the EU scheme EMAS (Eco-Management and Audit Scheme), other acknowledged environmental management systems stated in the decree (EF) no. 1221/2009 article 45, such as the Eco-Lighthouse Scheme or equivalent, and other environmental management standards that are based on relevant European or international standards from accredited bodies, e.g., ISO 14001 or equivalent.

Requirement: The tenderer must have measures and systems implemented that ensure that the tenderer is suitable to fulfil the contractual requirements regarding assessments of due diligence for responsible business practices, cf. Annex 8 of the contract. This means that tenderers have implemented measures and systems that are used in the tenderer's work to ensure respect for basic human and employee rights as well as the environment and anti-corruption efforts in their own company and in the supplier chain.

Documentation: A description of the tenderer's systems for assessing due diligence in accordance with the UN's guiding principles for businesses and human rights (UNGP) and OECD's guidelines for multi-national companies. The documentation must include:

- o Policy/guidelines or corresponding documentation that obligates the tenderer to make assessments of due diligence in regards to responsible business practices.
- o Descriptions of the tenderer's process and routines for how the company works on due diligence assessments.
- o Guidelines for ethical trade (Code of Conduct (CoC)/Supplier Code of Conduct), or an equivalent document for tenderers/subcontractors/the supplier chain, which sees to the contracting authority's contract terms. This must be submitted only if subcontractors will be used.
- o A description of how the tenderer will obtain and maintain an overview of the country of origin and production places for the products in this contract.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with a single operator
