Value of all contracts awarded in this notice: 2 499 300,00 EUR

Direct award

:

Justification for direct award: Specific exclusions for service contracts

Other justification: The negotiated procedure for a service contract requested here is based on: • Article 3.3.5.1 of the PRAG, which refers to "services that are entrusted to public-sector

bodies or to non-profit institutions or associations and relate to activities of an institutional nature or designed to provide assistance to people in the social field"; and • article 39.1 a), of Chapter 3 « Procurement in the field of external actions » of Annex 1 of the Financial Regulation (pages 316 -317), which refers to: "the services are entrusted to public-sector bodies or to non-profit institutions or associations and relate to activities of an institutional nature or are designed to provide assistance to people in the social field Prior approval is therefore requested for the conclusion of a EUR 2,500,000 service contract (NDICI THREATS FPI/2025/482-972) for the reinforcement of tracking of zoonotic diseases that might arise due to the environmental impact climate change in the Central Asia region. This is in line with the objectives and expected results of the Action Document for CBRN, Annex II of decision C (2024)2042 (CRIS ref: NDICI/2024/045-593.) Only public Member State agencies represent the appropriate homologous counterpart for the targeted beneficiary public bodies, sharing the same mandate in the field of CBRN security and safety, therefore in line with the provision of article 3.3.5.1 of PRAG giving the institutional nature of the envisaged activities. The use of the negotiated procedure with Member States' agencies is recommended due to the institutional nature of the services involved and more important to the sensitive nature of the information that will be manipulated by the implementing entity. Private consultancy is not appropriate nor accepted by the beneficiaries as leading entities in this situation due to the sensitivity of the activities and information to be shared. Using public Member States agencies to implement this project will also reinforce institutional relations between the EU Member States governmental agencies and the their counterparts in Central Asia.
