II.1.4. Short description

Hull and East Yorkshire Hospitals NHS Trust is a large acute Trust located in East Yorkshire. The Trust currently uses 72 GWh of gas and 26 GWh of electricity annually and has future plans to install CHPs during the next supply period (within June' 19 and June' 20) which will vary consumption levels for both commodities. The estimated annual demand after the CHPs

installation is of 102 GWh for gas and 7 GWh for electricity. The Trust is looking to appoint a supplier to work with over the coming years enabling the control of the commodity price exposure through a flexible procurement solution. It is envisaged that this will comprise a 36-month contract with an option to extend by 6 months maximum 2 times, this option will be at the sole discretion of the Trust. Only suppliers holding the relevant Ofgem supply licenses will be eligible for receipt of the tender documentation, copies may be required as evidence of eligibility prior to documentation being sent out.
