Re:allies has procured and entered into a framework agreement with multiple contractors for the gas servicing, maintenance and repair of existing installations. The service required within the framework will be a standard 3\* comprehensive service and maintenance provision to gas fired central heating installations and miscellaneous gas appliances. The framework may, if required by the customer, also include the requirement to replace installations. Contractors will, where requested, be required to source non-consumable materials from framework agreements and contracts that have already been established by Re:allies. Contractors who have been appointed to the framework agreement will also be required to meet minimum training and employment targets that are linked to the services awarded via the framework agreement.

The framework agreement will allow contracting authorities named and referred to within the contract notice to enter into underlying contracts for the completion of the works and services covered by the framework agreement. The framework agreement is divided into 8 Lots and the details are as follows –

A list of PP's, CHP's, EN's and CHIC's customers is included in section VI.3 of the Contract Notice. The contracting authorities referred to in paragraphs 1-3 above have requirements predominantly in the regions described.
