Address of the buyer profile: <http://www.ssb.no/>

I.4. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Resources for the IT Department

Reference number: 22/1914

II.1.2. Main CPV code

79600000 Recruitment services

II.1.3. Type of contract

Services

II.1.4. Short description

The aim of the procurement is to establish a framework agreement with a tenderer that can be used to obtain necessary external competence for the contracting authority.

The contracting authority currently has approx. 10 call-offs a year under an existing framework agreement within IT.

The framework agreement will cover the need for competence that the contracting authority does not have access to in its department on a given date, or when there is an independent need for external solving of a problem. The framework agreement can also be used if extra capacity is needed.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 85 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

72220000 Systems and technical consultancy services, 72222300 Information technology services

II.2.3. Place of performance

NUTS code: NO020 Innlandet

NUTS code: NO081 Oslo

II.2.4. Description of the procurement

The aim of the procurement is to establish a framework agreement with a tenderer that can be used to obtain necessary external competence for the contracting authority.

The contracting authority currently has approx. 10 call-offs a year under an existing framework agreement within IT.

The framework agreement will cover the need for competence that the contracting authority does not have access to in

its department on a given date, or when there is an independent need for external solving of a problem. The framework agreement can also be used if extra capacity is needed.

The contracting authority is working towards modernising statistics production in SSB through changing

processes and renewing the IT portfolio within several links in the production chain; data acquisition, preparing and analysing data, communicating statistics and data, as well as within information management. The contracting authority is establishing a new IT platform in the cloud to support this.

A modernised statistics production will use cloud native principles, and in a considerably greater degree than today, be service orientated and use patterns such as micro-service architecture, etc. In the coming years the contracting authority will establish IT systems and statistics production in a new cloud platform.

The contracting authority has a large existing product portfolio on the current platform. This must be managed at the same time that the functionality is established in the cloud platform.

The contracting authority reserves the right, in special cases, to decide whether a need must be announced

as an independent contest.

The contracting authority reserves the right to announce a contest for the hire of IT resources that are still being trained.

II.2.5. Award criteria

Price

II.2.11.

Information about options

Options: no
