5.1.3. Estimated duration

Duration: 4 Months

5.1.5. Value

Estimated value excluding VAT: 34 424 000,00 NOK

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.10. Award criteria

Criterion:

Type: Price

Name: Price

Description: The award criteria in this competition is the lowest price. Documentation requirement: The tenderer shall submit an E5 Tender Form.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 100

Criterion:

Type: Quality

Name: Climate and environment

Description: The procurement is for asphalt works in Helgeland. According to the Public Procurement Regulations § 7-9 (4), the award criterion in accordance with PPR § 7-9 (2) and (3) can be replaced with climate and environmental requirements if it is clear that this provides a better climate and environmental effect. The climate and environmental impact of this procurement is mainly related to production and laying of asphalt. Asphalt contracts in Salten and Helgeland have in recent years only had one tenderer. The areas bear the imprint of high prices for asphalt, and limited efforts to bring down climate footprint. An important prerequisite for using award criteria with co2 weighting is that there are more than one tenderer. When there is no competition for the assignments, the potential for emission cuts will not occur in connection with the award through competition between tenderers. The asphalt contracts in Salten and Helgeland will, therefore, not achieve good climate and environmental effect by using the award criteria. These contracts therefore have an upper emission limit measured in co2eq. The emission limit concerns the total emissions for the contract for module A, phases A1-A5. Cf. C4 point 4. The emission limit will be adjusted annually to approach the national target in 2030. In addition there are requirements regarding the use of Ir scanning, requirements for deformation resistance (Wheel track), and the contracts are followed up with i. a. surface covering cavities (georadar) in order to ensure optimum quality. In addition the contracts are required that at least 50% of the asphalt shall be produced as low temperature asphalt (LTA). By setting minimum requirements in the contract, we are largely ensured a climate and environmental effect and we therefore consider the climate and environmental gains in this procurement to be better safeguarded through such a requirement position rather than the use of climate and environment as the award criteria.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 0

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Oslo tingrett

Information about review deadlines: The waiting period deadlines are in the PPR. § 25-2.

Organisation providing more information on the review procedures: Oslo tingrett

6. Results

Value of all contracts awarded in this notice: 34 424 000,00 NOK

6.1. Result lot identifier: LOT-0000

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: Nordasfalt AS

Tender:

Tender identifier: Asfaltarbeider nord, Salten - Nordasfalt AS

Identifier of lot or group of lots: LOT-0000

Value of the tender: 32 023 060,00 NOK

Subcontracting: Not yet known

Contract information:

Identifier of the contract: Asfaltarbeider nord, Salten - Nordasfalt AS

Date of the conclusion of the contract: 02/03/2026

6.1.4. Statistical information**Summary of the review requests the buyer received:**

Number of complainants: 0

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 1
