Section II: Object of the contract

II.1. Description

II.1.1. Title

NG-14-03: Telephony.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 5: Telecommunications services

Main site or place of performance: Dovre, Lesja, Lom, Sel, Skjåk and Vågå municipalities, Norway.

NUTS code NO022 Oppland

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4. Short description of the contract or purchase(s)

The municipalities in the procurement cooperation, Dovre, Lesja, Lom, Sel, Skjåk and Vågå municipalities, intend to enter into a contract for the procurement of tele traffic and the accompanying services. The aim of the contract is to cover the municipalities' ongoing need for stable telecommunication systems with an experience of top quality, stability and user friendliness.

The municipalities currently have traditional call contracts for landlines and mobiles and have in recent years phased in Telenor's InContact system. The system requested in this competition shall replace the current InContact system without a need for investments in new

licences or servers.

The current telephony platform consists of a mix of mobile, landlines on ISDN and analogue. The system functions satisfactory and the starting point is that it is not desirable to change the portfolio as regards the current situation. This is justified by the fact that the municipalities do not currently have the resources to make other changes than those that are absolutely necessary for the change of service provider.

The municipalities have recently started to use MS Lync. The service provider must therefore be able to provide the necessary integration with Lync.

II.1.5. CPV code(s)

64200000 Telecommunications services, 64210000 Telephone and data transmission services , 64211000 Public-telephone services, 64212000 Mobile-telephone services, 64214400 Communication land-line rental
