Lot No: 1

Lot title: Endogenous crop yield adjustments

1) Short description

The overall objective of the project is to propose, implement and validate a methodology to include endogenous yield adjustments (i.e. yield response functions) applicable at the EU-28 level that can be easily implemented in the framework of IFM-CAP. The specific objectives that will be developed by the contractor are:

1. selection and justification of the methodological framework;
2. identification of data needs and data quality evaluation;
3. development of the proposal: data treatment and module implementation;
4. empirical implementation and validation of the methodology;
5. technical training for the IFM-CAP staff.

2) CPV code(s)

Estimated value excluding VAT: 100 000 EUR

4) Indication about different time frame or duration

5) Additional information about lots

Lot No: 2

Lot title: Allocation of labour input

1) Short description

The objective of this project is to propose and test a method to allocate the total labour input (annual working units, hours, and wages for paid labour) to each of the farm production activities. The specific objectives of this project are the following:

1. selection and justification of the methodological framework for allocating (family and hired) labour inputs;
2. identification of data needs;
3. empirical implementation and validation of the methodology;
4. technical training for IFM-CAP modelling team.

2) CPV code(s)

5) Additional information about lots

Lot No: 3

Lot title: Feasibility study on modelling rural development policies in IFM-CAP

1) Short description

The objective of this project is to propose and develop a methodological framework for modelling rural development policies in IFM-CAP. The specific project objectives include:

1. provide an overview/classification of the rural development policies in the base year period and for the financial period 2014–2020;
2. propose and select the methodological framework to model rural development measures to be implemented in the framework of the IFM-CAP;
3. provide conceptual development of the proposed methodological framework;
4. empirical implementation and validation of the methodological framework;
5. technical training for the IFM-CAP staff.

2) CPV code(s)

5) Additional information about lots

Lot No: 4

Lot title: Implementation of linkage with farm structural change module

1) Short description

The objective of the present study is to link the IFM-CAP model with farm structural change. The study shall develop a methodology for inclusion of structural change in the IFM-CAP baseline.

The specific objectives that this study has to meet are the following:

1. based on work available in the literature, propose a methodology to project farm structural change applicable for IFM-CAP;
2. develop a methodology applicable for farm structural change projections for the medium-term horizon;
3. develop the linkage between the farm structural change projections and external baseline;
4. propose potential approaches to endogenise farm structural change in IFM-CAP;
5. technical training for IFM-CAP team.

2) CPV code(s)

73110000 Research services

3) Quantity or scope

Estimated value excluding VAT: 120 000 EUR

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

Please refer to the tender documents.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Please refer to the tender documents.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

The organisation of joint offers or offers from groupings is at the discretion of the tenderers. Such offers will be treated no differently from any other type of offer. Tenders can be submitted by consortia of 2 or more economic operators ('joint tender'). Each legal entity will be required to sign the contract in case of award, and shall assume joint and several liability towards the contracting authority for the fulfilment of the terms and conditions of the contract. The consortium shall nominate 1 legal entity ('the leader') who will have full authority to bind the consortium and each of its members, and will be responsible for the administrative management of the contract (invoicing, receiving payments, etc.) on behalf of all other entities. Subcontracting is allowed but the contractor shall retain full liability towards the contracting authority for implementation of the contract.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Tenderers will not be eligible to take part in this contract award procedure if they are in any of the exclusion situations listed in Articles 106 and 107 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25.10.2012 (OJ L 298 of 26.10.2012).

Should a contract be awarded, the contractor will be required to produce the supporting documents required in Article 145(2) in conjunction with Article 143(3) of the rules of application (Commission Delegated Regulation (EU) No 1268/2012). In the case of groupings of contractors, the information required must be supplied by all members of the grouping. The same information will have to be provided by subcontractors with an estimated budget share of more than 20 %.

III.2.2. Economic and financial ability

List and brief description of conditions: a) Statement of overall turnover, profits and losses and a balance sheet (or copy of budget in the case of non-profit organisations), for the previous 3 financial years.

Minimum level(s) of standards possibly required: a) The average of the annual turnover of the past 3 financial years must be at least 100 000 EUR.

III.2.3. Technical and professional ability

List and brief description of conditions:

b) List of principal clients and services provided over the course of the past 3 financial years, where work relevant to this call for tender was carried out, with an indication of the value of the services provided, in particular projects based on agro-economic modelling.

Minimum level(s) of standards possibly required:

b) 3 years of experience in agro-economic modelling.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes
