Iceland – Runway lights – Stop bar system

OJ S 48/2025 10/03/2025

Contract or concession award notice – standard regime

Supplies

1. Buyer

1.1. Buyer

Official name: Isavia ohf.

Email: e-tenders@isavia.is

Activity of the contracting entity: Airport-related activities

2. Procedure

2.1. Procedure

Title: Stop bar system

Description: Isavia has entered into an agreement to procure lighting for the Stop bar system at Keflavík Airport. The lights purchased are controlled by a software system that Isavia is currently using at Keflavík Airport that gives control to each light. The software system requires lights from the same manufacturer to be able to control each light and therefore cannot use lights from other manufacturers. This procurement was conducted through a direct procurement process.

Procedure identifier: 7e61caf9-cfb6-4379-b972-9ed85f3136e0

Type of procedure: Negotiated without prior call for competition

2.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 34997210 Runway lights

2.1.2. Place of performance

Country subdivision (NUTS): Höfuðborgarsvæði (IS001)

Country: Iceland

2.1.4. General information

Legal basis:

Directive 2014/25/EU

5. Lot

5.1. Lot: LOT-0001

Title: Stop bar system

Description: Isavia has entered into an agreement to procure lighting for the Stop bar system at Keflavík Airport. The lights purchased are controlled by a software system that Isavia is currently using at Keflavík Airport that gives control to each light. The software system requires lights from the same manufacturer to be able to control each light and therefore cannot use lights from other manufacturers. This procurement was conducted through a direct procurement process. Internal identifier: Stop bar system. According to article 50 in paragraph (e). in directive 2014/25/EU and article 53 in paragraph (e) in the Icelandic legislation 340

/2017 The negotiated procedure without prior publication may be used for public supply contracts: (e) in the case of supply contracts for additional deliveries by the original supplier which are intended either as a partial replacement of supplies or installations or as the extension of existing supplies or installations, where a change of supplier would oblige the contracting entity to acquire supplies having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance; DESIGN STANDARDS ARE CRITICAL EASA CS-ADR-DSN Certification Specifications and Guidance Material for Aerodrome Design ICAO Annex 14, Volume I ICAO Doc 9157 Part 4, "Visual Aids" ICAO Doc 9157 Part 5, "Electrical Systems" ICAO Doc 9157 Part 6, "Frangibility" FAA Advisory Circulars FAA Engineering Briefs IEC/TS-61827, Electrical installations for lighting and beaconing of aerodromes - Characteristics of inset and elevated luminaires used on aerodromes and heliports. IEC-61823, Electrical installations for lighting and beaconing of aerodromes - AGL series transformers. IEC-61822, Electrical installations for lighting and beaconing of aerodromes – Constant current regulators. IEC-61821, Electrical installations for lighting and beaconing of aerodromes – Maintenance of aeronautical ground lighting constant current series circuits ENV 50230, Aeronautical ground lighting electrical installation - Control and monitoring systems: General requirements RISKS Adopting an alternative product or light fitting manufacturer increases the risk of :- a) Loss of commonality between new and existing light fitting components and requirement to retain multiple differing spare parts inventories for different manufacturers. b) Lamp failure response and action time may be hindered as the need to identify an individual component manufacturer is introduced. c) Torque settings vary between different manufacturers recommendations. Failure to torque in accordance with the manufacturers recommendations can result in failure of the inset fitting installation and pose a significant risk and danger to life. Conclusion It is therefore in accordance with article 50 in paragraph (e). in directive 2014/25/EU and article 53 in paragraph (e) in the Icelandic legislation 340/2017 that the Stop bar system is installed as per the design and specification recommendations and a common manufacturer consistent with the existing AGL fittings installed across the airfield is maintained.

Internal identifier: Stop bar system

5.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 34997200 Airport lighting

5.1.2. Place of performance

Country subdivision (NUTS): Höfuðborgarsvæði (IS001)

Country: Iceland

5.1.6. General information

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Kærunefnd útboðsmála

Information about review deadlines: 30 days

Organisation providing additional information about the procurement procedure: Isavia ohf.

Organisation signing the contract: Isavia ohf.

6. Results

Value of all contracts awarded in this notice: 188 582 980,00 ISK

Direct award

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: A contracting entity may opt for direct procurement e.g. if only a certain supplier can implement the procurement for a technical reason, or for a reason related to protecting an exclusive right. A further condition is that there are no reasonable alternatives or substitute solutions, and that the absence of competition is not due to an artificial narrowing of the terms and conditions of the procurement.

6.1. Result lot identifier: LOT-0001

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: Fagkaup

Tender:

Tender identifier: Fagkaup

Identifier of lot or group of lots: LOT-0001

Value of the tender: 188 582 980,00 ISK

The tender is a variant: no

Subcontracting: No

Contract information:

Identifier of the contract: ILOS-3184

Organisation signing the contract: Isavia ohf.

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 1
