II.1.4. Short description

This represents a flagship project to design the first new strategic water resource in the South East for decades. Construction work is anticipated to start on the winter storage reservoir at Havant Thicket (the "Project") in 2024, for completion by 2029. The Project is socially, economically and environmentally significant and valued at 106m GBP. It is the product of collaborative regional water planning and forms a key step in increasing water resilience in the South East.

This Notice relates to the appointment of a Principal Designer for the Project.

The procurement of the Principal Designer was carried out together with the procurement of the framework agreement for wider design services, together advertised in OJEU Contract Notice [2018/S 157-360732](#). However this award notice relates only to the award of the

Principal Designer contract. It is anticipated that the framework agreement will be the subject of a separate award notice.
