II.2. Scope of the procurement

II.2.1. Total quantity or scope

PCH are looking to enter into framework agreements for this waste requirement and these will be for 3 years, with the option to extend for a further year, subject to annual review at PCH' sole discretion, based on performance, price and business objectives. The contract has an estimated value of approx. 350 000 GBP per annum in total, subject to business requirements. PCH intend to enter into contract with one supplier for each sub-lot but also may decide to award the contract per site or one contractor overall (LOT 7), the decision will be made on the most economic and advantageous tender for PCH. Suppliers may bid for one or more sub-categories within each lot.

The aim is to seek a new contract for waste disposal services which will achieve a high level of service, excellent value for money and positive environmental outcomes.

We have made a strong commitment to reducing our environmental impacts and a large part of doing this means finding the best possible solutions for our waste. To help us achieve this we are seeking companies and/or partner who is able to provide disposal routes in line with the principles of the waste hierarchy.

Our aim is for the service provider to ensure the following:

- all of our waste is zero to landfill,
- timely and accurate data is provided on all waste streams to allow monitoring against internal recycling targets,
- information is provided about the disposal or processing route followed for each waste

stream in order to assist with stakeholder engagement,

— support and advice is made available, on request, to assist with finding alternative solutions for specific waste streams.

We also expect that the companies and/or partner are able to provide a high quality and timely service that represents excellent value for money.

Included in this tender are five of our corporate sites and the requirements of a desired, externally hosted site suitable for receiving light construction/building services waste. Each of these has its own specific requirements in terms of access, waste streams and volumes of waste produced. You are invited to tender for all of the waste streams produced at all of the sites listed below as one entire contract, or separately for any number of specific streams at individual sites.

The tender is broken down into the following lots:

- LOT 1 — Plumer House complete waste collection,
- LOT 2 — Brest Road store complete waste collection,

Precise information on deadline(s) for review procedures: PCH will allow a period of at least ten (10) calendar days between the date it gives notice to candidates of the decision to award the proposed agreement and the date on which it proposes to conclude the agreement. If, by midnight at the end of the second working day of the ten (10) day standstill period, PCH receives a request in writing from a candidate as to why it was not successful, PCH is required to provide additional information to the candidate.

That information must be provided at least three (3) working days before the expiry of the ten (10) days' standstill period (though the standstill period may be extended if it is not possible to

provide the information in time). Requests for additional information should be sent to the contact at section 1.1. An aggrieved candidate who claims that it has suffered or risked loss or damage as a result of breach by PCH of its duties under the Public Contracts Regulations 2006 may take proceedings in the High Court. Any such proceedings must be brought promptly and in any event within three (3) months from the date on which grounds for bringing proceedings first arose (the Court has a discretion to extend the period for good reason).
