Works

Design and execution

Main site or place of performance: Hendon - Neasden, London.

NUTS code UKI23 Outer London - West and North West

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement**II.1.5.**

Short description of the contract or purchase(s)

London Underground's Sub-Surface Railway Upgrade Project involves the introduction of new rolling stock and signalling systems on the Metropolitan and District sub-surface lines. As well as providing a greatly improved passenger environment that includes air conditioning, the new trains, coupled with the introduction of new signalling, will permit faster station to station run times and higher train service frequencies. The associated SSR Power Upgrade Project involves the replacement and upgrading of significant parts of the high voltage and traction power supply infrastructure that supports the operation of the line.

This enquiry specifically covers Package 7B of the Power Upgrade programme. It is intended to competitively tender a Detailed Design & Build contract under an NEC 3 ECC Option A (with amended London Underground Ltd terms) contract to deliver this works.

The works include the detailed design, procurement, supply, construction necessary to facilitate the installation and commissioning of approximately six kilometres of 2 Nr. 132kV underground cable circuits, system integration, commissioning and handover of associated equipment and structures starting at Hendon Grid and terminating at London Underground's Neasden Depot.

II.1.6. CPV code(s)

51112100 Installation services of electricity distribution equipment, 45231000 Construction work for pipelines, communication and power lines

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

II.1.8. Information about lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The works include the detailed design, procurement, supply, construction necessary to facilitate the installation and commissioning of approximately six kilometres of 2 Nr. 132kV underground cable circuits, system integration, commissioning and handover of associated equipment and structures starting at Hendon Grid and terminating at London Underground's Neasden Depot.

As per Ofgem guidelines and the Distribution Network Operator's (UK Power Networks) requirements London Underground is obliged to use only qualified Independent Connection (third party) Providers and approved within the relevant discipline on the National Electricity Registration Scheme (NERS). As a prerequisite your company must evidence that it currently holds Full Approval or Partial Approval NERS certification for 132kV Cable Laying.

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Duration in months: 24 (from the award of the contract)

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

The Contracting Entity's requirements will be set out in the Invitation to Tender documents. A parent company guarantee and/or bond will be required.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Tenders and supporting documents must be priced in Pounds Sterling and all payments under the Contract(s) will be made in Pounds Sterling and will normally be made by means of electronic funds transfer. Full details will be contained in the Invitation to Tender documents.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

No special legal form is required but in the event of a group of contractors submitting an acceptable offer, it will be necessary to provide an undertaking that each company will be jointly and severally responsible for due performance the contract.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: As per OFGEM guidelines and the Distribution Network Operator's (UK Power Networks) requirements London Underground is obliged to use only qualified Independent Connection (third party) Providers and approved within the relevant discipline on the National Electricity Registration Scheme (NERS). As a prerequisite your company must evidence that it currently holds Full Approval or Partial Approval NERS certification for 132kV Cable Laying.

To express your interest in this project please confirm and provide evidence of your company's NERS registration status.

III.2.2. Economic and financial ability

List and brief description of conditions: During the tender process participating companies will be requested to demonstrate their economic and financial ability to deliver the contract.

III.2.3. Technical and professional ability

List and brief description of conditions: During the tender process participating companies will be requested to demonstrate their technical ability to deliver the contract.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts
