The procurement is related to a project and/or programme financed by European Union funds:
no

VI.2. Additional information

If and when this requirement is offered to tender, this may be done in whole or in part via electronic means using the Internet. The contract is for the benefit of other participating NHS bodies (whether acting individually, or on behalf of, or together as members of any consortia) along with any other non-NHS bodies which the participants deem necessary for the delivery of services or goods to NHS bodies, local authorities, other government departments or non departmental public bodies charged with the delivery of healthcare or health related services. The NHS bodies currently working with the tendering body and who may participate in this process are listed in this notice. The relevant Trusts listed above will be participating in this contract, subject to the terms and conditions of any existing agreements. The selected supplier (s) will be expected to provide a service to provide Dose Banded Chemotherapy product / service (as specified within the tender) as and when required by the EMPC and member Trusts. Future additions to their ranges may also be included at a later stage.

There is an option to extend this contract for one by 24 month periods subject to satisfactory performance through the initial contracted period.

Other Trusts or Hubs may join this contract with the agreement of supplier and buyer as detailed in II.1.2 at any point in the contract duration.

We would draw suppliers attention to the guidance given in "Design for patient safety - A guide to labelling and packaging of injectable medicines" published by the National Patient Safety Agency and "Syringe labelling in critical care areas" published by The Royal College of Anaesthetists East Midlands Collaborative Pharmacy (EMCP) and its member trusts are happy to work with suppliers on the design of labels and packaging. Any collaboration between EMCP, Trusts and Suppliers will be recorded but the details of such discussions will be treated as commercially confidential and would not be disclosed to other parties without the consent of the Supplier.

Products must be packaged and labelled in a way that minimises "look alike" errors.

Non active samples of inner and outer packaging will be required at ITT stage.

VI.3. Procedures for review

VI.3.1. Review body

VI.3.2. Review procedure

Precise information on deadline(s) for review procedures: EMPC will incorporate a minimum 10 calendar day standstill period at the point information on the award of contract is communicated to tenderers. This period allows unsuccessful tenderers to seek further debriefing from EMPC before the contract is entered into. Applicants have two working days from the notification of the award decision to request additional debriefing, and that information has to be provided a minimum of three working days before the expiry of the standstill period. Such additional information should be requested via the Bravo eTendering system using the messaging facility within the appropriate ITT. If an appeal regarding the award of a contract has not been successfully resolved the Public Contracts Regulations 2006 (SI 2006 No 5) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland). Any such action must be brought promptly (generally within 3 months). Where a contract has been entered into the Court may order the setting aside of the award decision or order the authority to amend any document, and may award damages. If the contract has been entered into the Court may

only award damages. [The purpose of the standstill period referred to above is to allow parties to apply to the Courts to set aside the award decision before the contract is entered into.].

VI.3.3. Service from which information about the review procedure may be obtained

VI.4. Date of dispatch of this notice

14.5.2013
