Target audience for the conference are all potential suppliers of TVMs and adjacent services. Ruter consider the following to be essential output for this conference:

- Challenge market participants to give input on how Ruter's needs can be clearly defined, how these needs can be fulfilled and what the market can offer in terms of innovative and cost efficient solutions.
- Give potential suppliers a better understanding of Ruter's Challenges and provide input and advice on how these challenges can be handled moving forward.
