II.2. Description

II.2.3. Place of performance

NUTS code: DE212 München, Kreisfreie Stadt

Main site or place of performance: Areas of Operation of EIT Health within the EU

II.2.4. Description of the procurement

2.1 Content development to demonstrate EIT Health's "value" to internal and external audiences

Successfully communicating our value and impact will shape EIT Health's own profile within the external space and enhance understanding of who we are, what we are, and how and why we do it.

EIT Health's value and benefits to healthcare challenges are defined in large part by the success of its projects and programmes. The service provider shall define, generate, and communicate compelling and meaningful content, distributed via differing channels for diverse audiences that aims to convey our value, the benefits that we derive and the real impact we create, as evidenced through the successes of our portfolio. The key is to be able to tell captivating stories, about the innovators and entrepreneurs we help create, about the innovative solutions and services that are devised from idea generation through to commercialisation, and most importantly the effect and change felt by the ultimate end recipient - patients and citizens.

The services provider will be responsible for communicating our success stories (case studies) compellingly, broadly and effectively - appropriately designed for the target audiences (media, our partners, payers and commissioners, policy and political players to name but a few) to both raise awareness of EIT Health as key player itself within the healthcare arena, the effectiveness of our consortium model, but to also reinforce our position as the healthcare innovation platform in the EU.

The service provider shall also make recommendations of additional but associated content, tools and resources that supplement the achievements and successes of our portfolio to further strengthen and reinforce our position as a meaningful and valuable contributor to the healthcare innovations landscape.

2.2 Other content development for website, intranet, newsletters, etc.

EIT Health has a number of existing channels to communicate both internally and externally. These channels include the EIT Health website, newsletters, videos, social media etc.

The services provider will be responsible for content development on EIT Health strategy, programmes, projects and ongoing activities that can serve as the basis for websites, print /digital material, social media channels and other internal / external communications. Content shall reach diverse audiences (stakeholder, academic, business, client / beneficiary, public) at a local, regional, national and international level.

The services provider shall identify, present and implement novel and cutting-edge communications technologies and platforms in line with EIT Health's position as an Innovation Platform - particular attention shall be paid to innovative communication methods and techniques.

The service provider will also tender strategic guidance on and execution of the revision /refresh of our core materials that provide an overview of EIT Health and its activities (i.e. partner brochure), but also make recommendations and develop any "new" materials that

contribute to a more comprehensive suite of materials, such as additional background materials (i.e., "what is innovation in healthcare?") and other supporting assets such as complementary videos etc.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 36

This contract is subject to renewal: yes

Description of renewals:

Option for EIT Health for a prolongation of 12 months (resulting in a maximum duration of the agreement of 36 + 12 = 48 months). The right is to be exercised at the sole discretion of EIT Health e. V. and by written notice to the contractor not later than 2 months before the end of the initial period.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 3
Objective criteria for choosing the limited number of candidates:

In case there are more than 3 candidates whose requests to participate meet all the minimum requirements set out in section 4.1.2.3 of the procurement and procedure description, EIT Health will select 3 candidates whose reference projects pursuant to section 4.1.2.3 (8) achieve the highest scoring as stated below which it will request to participate in the negotiated procedure and to submit initial tenders on the basis of the procurement documents.

Objective criteria for the selection of the limited number of candidates:

Each reference project fulfilling the prerequisites will be scored by max. 3 points as follows:

0 points = rarely comparable in terms of scope and content, to the objectives, requirements and expectations set out in sections 1.2 and 2 of the procurement and procedure description; many discrepancies as to scope and content which don't provide for a reliable affirmation of a sufficient level of the candidate's experience by EIT Health.

1 point = fairly comparable in terms of scope and content, to the objectives, requirements and expectations set out in sections 1.2 and 2 of the procurement and procedure description; some discrepancies as to scope and content which leave some doubt of EIT Health as to the sufficient level of the candidate's experience.

2 points = completely comparable in terms of scope and content, to the objectives, requirements and expectations set out in sections 1.2 and 2 of the procurement and procedure description; only minor discrepancies as to scope and content which don't leave significant doubt of EIT Health as to the sufficient level of the candidate's experience.

Additional 1 point = reference project involved activity in at least four EU countries.

Max. points achievable: 5 reference projects max. x 3 points = 15 points.

If, on the basis of this scoring, there are no 3 candidates with more points than the other candidates (e.g. because there are two candidates with the same score in 3rd place, i.e. there is no 4th place), the selection of the candidates from this group with the same score is drawn by lot (e.g.: 3 candidates on third place with equal score: the third place will be drawn between these 3 candidates).

EIT Health will engage in a comparative assessment of the reference projects of each candidate for this purpose.
