The nine tanks are in 2 bunds (tanks 4, 5, 6 and 7 in Bund 1 and tanks 8, 9, 10, 11 and 12 in Bund 2).

The tanks were built in the 1950s and 1960s and were used for the storage of heavy fuel oil. The Tank Farm was refurbished between May 2009 and April 2011 and is now used to store Class III petroleum (diesel / gas oil). The tanks were not repainted as part of the refurbishment works, although new and repaired steelwork on the tanks was painted, and damaged external paintwork was shot blasted and painted.

NORA now intends to commence a tank painting programme, starting with Tank 4 and Tank 5 only during 2017. Depending on its tank painting programme and operational requirements, NORA may continue its tank painting programme to the other tanks over the course of this contract, subject to its operational requirements and the satisfactory performance of the contractor.
