II.1.4. Short description

The study will carry out in-depth analytical work to assess the socio-economic impacts of the transition to climate neutral economies. It will focus on issues that have been insufficiently explored thus far, including risks related to frictions in the reallocation of labour and capital across economic sectors, the political economy of the transition process, distributional issues, the impacts of stranded assets and the implications of the transition for government finances. The study will rely at least in part on macro-economic modelling tools.
