2.1. Procedure

Title: Agreement on an operational control system (SCADA) for water and sewage

Description: Nittedal municipality, hereafter called the Contracting Authority, invites tenderers to a competition for the procurement of a new operations control system (SCADA) for water and sewage. Nittedal is a municipality in Akershus with a population of 26,000. The municipality borders Lunner, Nannestad, Gjerdrum and Lillestrøm to the north and east. In the south and west the municipality borders Oslo, and our slogan is "Where a big city meets the countryside". Nittedal municipality is responsible for a broad spectrum of welfare assignments. In addition the municipality has been assigned central assignments connected to community development, planning and exercise of the authority. Further information on Nittedal municipality is available at the www.nittedal.kommune.no.

Previous notice: 3a96e2d9-c7a5-4d81-b88a-3bbdeec75d3c-01

Internal identifier: 25/03280

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: no

Main features of the procedure: The aim of the procurement is to establish a new operational control system for monitoring and managing the municipality's water and sewage infrastructure. The current system is terminated and it is decisive to procure a new system to ensure stable and secure operation of services that are critical for life, health and the environment. The procurement is a part of the municipality's digitalisation strategy for the water and sewage sector, with the aim of increasing security, reduced stoppages, improved decision basis and long-term cost savings. See the requirement specifications in Annex 1a and Annex 1b for further information on the procurement's purpose and content.
