I.4. Type of the contracting authority

National or federal agency/office

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Seed analyzer and maintenance and service agreement

Reference number: 2832/02.03.02/2019

II.1.2. Main CPV code

38921000 Grain analysers

II.1.3. Type of contract

Supplies

II.1.4. Short description

The object of procurement is automatic analyzer which analyzes oats, barley, wheat and rye seed samples taken for official testing for seed certification. The device works independently. It can adjust itself to local seed material. Calibration, licences and software support are included in the procurement, and the maintenance and service agreement will be procured in order to ensure good working condition of the device. The Supplier takes charge of delivering the device to Finnish Food Authority, setup of it to working condition, providing the operating instructions and operator training. Following delivery, the device shall be set up without delay. The device will be placed at Finnish Food Authority's premises (Tampereentie 51, Loimaa) in Research and Laboratory Department which is equipped with regular technical and laboratory facilities.

II.1.5. Estimated total value

Value excluding VAT: 172 000,00 EUR

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: FI1C1 Varsinais-Suomi

II.2.4. Description of the procurement

The object of procurement is seed analyzer which handles and analyzes full-sized official (EU seed legislation) cereal seed samples automatically. By separating and recognizing pure barley, oats, wheat and rye seeds it makes large part of work of other seed determination (OSD) analyses that is mandatory for all seed samples that are taken for the certification and marketing of seed lots. Finnish Food Authority is currently the only body that analyzes the official seed samples in Finland. The number of samples is approximately 4000 per year. The device includes operating system with computer and software for data acquisition, processing, data analysis and reporting, automatic sample handling and analyzing-system. It has readiness for wireless access to internet. The analyzer adjusts itself to local seed material and varieties. Samples can be uploaded in the machine and are moved automatically to be analyzed. The device divides samples into two fractions; pure seed and rejected fraction. Both pure seed and rejected fraction are saved and can be inspected manually if necessary. The data used for recognition is saved and can be re-evaluated afterwards. The device will be placed in seed laboratory of plant analytics unit (Tampereentie 51, Loimaa Finland) which is equipped with regular technical and laboratory facilities. This is a procurement of new device with advanced technology in Finnish Food Authority. Currently such advanced instrumentation with is not available in Finnish Food Authority's laboratory. The seed analyzer does work that is monotonous and physically strenuous for people. It can work independently also outside office hours, and levels out the work-load during peak times which are typical for seed analyzing. The procurement includes calibrations, licences and software support for three years. Also, the servicing contract will be procured in order to ensure good working condition of the device. The Supplier takes charge of delivering the device to Finnish Food Authority, set up of it to working condition, providing the operating instructions and operator training. Following delivery, the device shall be set up without delay.

II.2.5. Award criteria

Criteria below

Price

II.2.6. Estimated value

Value excluding VAT: 172 000,00 EUR

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 48

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information
