#### **II.2.3. Place of performance**

NUTS code: NO Norge

#### **II.2.4. Description of the procurement**

In this project, IMDi wants to investigate possible relationships between ethical diversity in businesses and profitability. The project will have a broad approach to understanding of 'profitability', both in public and private businesses. Profitability should not be limited to only financial conditions, but also include other factors that can measure whether a business is profitable and/or effective, for e.g. absence due to illness, working environment, turnover, etc. The project will describe what characterizes businesses in which one can possibly see the relationship between ethical diversity and profitability. On one hand, the project should discuss what will be important requirements for ethical diversity to contribute to increased profitability in businesses and on the other hand, describe what could possibly hinder this. It can be both internal and external conditions.
