Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Competition for a framework agreement for system management and development of the Norwegian Maritime Directorate's total architecture.

II.1.2. Main CPV code

72222300 Information technology services

II.1.3. Type of contract

Services

II.1.4. Short description

This framework agreement will consist of the management of existing trade systems, as well as the development and management of future systems based on the Total Architecture.

The contract will include the following:

— Troubleshooting on existing systems and services;

- Further development of existing systems and services;
- Development of new systems and services based on the Total Architecture;
- Sharepoint adaptations (e.g. interaction system for projects, with sharing of documents, work surface for employees and managers etc.).

The Norwegian Maritime Directorate bases new developments on a service orientated architecture (SOA) in order to make services available via different trade systems and over a spectrum of client platforms. The established architect platform for such service development has been built up with Microsoft.NET.

See the qualification documentation.
