## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Tenderers must be a legally established company.

Documentation requirement:

Norwegian companies: Company registration certificate

Foreign tenderers: Verification that the company is registered in a trade index or a register of business enterprises as prescribed by the law of the country where the company is established.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Tenderers must have sufficient economic and financial capacity to fulfil the contract.

Minimum level(s) of standards possibly required:

Documentation requirement: Tenderers must submit annual accounts including the board's annual report and the auditor's statement for the last three years. If the tenderer does not have Annual Accounts for the last three years, the Annual Accounts for the last or two last years should be delivered.

Foreign tenderers must submit their company's annual financial statements or extracts thereof if publication of the annual financial statement is required in the country where the tenderer is established.

The contracting authority reserves the right to collect credit evaluations through an independent credit assessment company.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

1) Tenderers must have experience from relevant and comparable deliveries.

2) Quality assurance system: Tenderers are required to have established quality assurance measures that ensure that the tenderer is suited to fulfil the contractual obligations for social requirements (see

Annex 3 Contract Formular for the Procurement of Goods, point 11, and Annex 4 Contract Formula for the Procurement of Trade Services, point 13). This means that the tenderer has methods for management of the supplier chain that enable follow-up of the supplier chain and follow-up of compliance with basic human rights, including:

- No one must be exposed to torture or cruel, inhuman or degrading treatment or punishment (UN's Universal Declaration of Human Rights article 5).

- All workers have the right to fair and good payment that ensures them and their family a dignified existence, and if necessary, complemented by other social protection (UN's Universal Declaration of Human Rights art. 23.3).
- Everyone has the right to rest and leisure time, including reasonable limiting of work hours and regular holidays with pay. (UN's Universal Declaration of Human Rights art. 24)
- ILO's core conventions (ILO convention no. 138 and 182 (ban on child labour), nos. 29 and 105 (ban on discrimination) and nos. 100 and 111 (ban on discrimination) and nos. 87 and 98 (freedom of association and right to collective bargaining).

International law regulations related to the delivery in this contract, including relevant UN decisions that Norway is subject to.

3) Tenderers must have a good and well functioning environmental management system. Tenderers must have routines for systematic environmental management.

Minimum level(s) of standards possibly required:

1) Documentation requirement: An overview of up to 5 relevant deliveries that the tenderer has carried out in the last 3 years. The overview of the deliveries must, as a minimum, include the following:

- Short description of the delivery, including the name of the contracting authority.
- Date of implementation.
- Scope of the delivery stated in monetary terms.

2) Documentation requirement: A description of the the system for managing the supplier chain, that the tenderer will use to carry out the contract. This includes quality assurance measures that enable systematic follow-up of the work on safeguarding basic human rights, the ILO's core conventions and the international law regulations related to the delivery in this contract, including relevant UN decisions that Norway is obliged to further down the supply chain / production process.

A description of the tracking systems that the tenderer will use to fulfil the contract. The description must state methods and/or systems that enable tracking of the production locations and country of origin involved in the supplier chain for the goods in this contract.

See Annex 2 – Guidance in social qualification requirements

See also Annex 2 c – Answer sheet for social qualification requirements. The use of the aforementioned annex is voluntary for the Tenderer, but is intended to be a support tool for documenting social qualification requirements. Tenderers are asked to be aware that the annex is only intended as support and supplementation. The response must also include an in-depth description/documentation/explanation.

3) Documentation requirement: Provide a short description of the tenderer's environmental management system.

The report must, as a minimum, contain an overview of the following:

- Routines for follow-up and updates on the company's environmental performance.
- Routines for continuous training of personnel within environmental work of significance to the contract.
- Routines that ensure compliance with the relevant environmental regulations.
- Routines for registration of follow-up of environmental events and deviations.

The environmental management system must reflect the tenderer's obligation in regards to proper handling of waste, considerate production and material choices.

Any certifications are accepted provided that they reference routines and measures for environmental objectives. The tenderer must show where in the certification these procedures and measures are described.
