Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: [http://eu.eu-supply.com/app/rfq/rwlenrance\\_s.asp?PID=267533&B=KGVLIGHT](http://eu.eu-supply.com/app/rfq/rwlenrance_s.asp?PID=267533&B=KGVLIGHT)

Tenders or requests to participate must be submitted to the abovementioned address

**I.4. Type of the contracting authority**

Regional or local agency/office

**I.5. Main activity**

Environment

**Section II: Object**

---

**II.1. Scope of the procurement****II.1.1. Title**

B1 – Building, HVAC and Sanitary Installations and Electrical Installations for Building for the Project 'Slammottak og kalkbehandlingsanlegg for slam ved Tangen renseanlegg'

Reference number: 19/00095

**II.1.2.**

**Main CPV code**

45000000 Construction work

**II.1.3. Type of contract**

Works

**II.1.4. Short description**

The contracting authority hereby calls for tenders for the contract 'B1 – bygg, VVS og bygg-elektro' (B1— buildings, HVAC and sanitary installations and electrical installations) for the project 'Slammottak og kalkbehandlingsanlegg for slam ved Tangen renseanlegg' (Resection of sludge and a lime treatment facility for sludge at Tangen treatment facility).

The Tanegen treatment facility at Sørumsand is a biological-chemical treatment plant that receives sewage water from Sørum, Fet and Gjerdrum municipalities. The facility has a capacity for 64 000 PE and is currently connected to 29 000 PE. The treatment facility has no processes for the stabilisation and hygienisation of sludge, and the sludge which is dewatered in centrifuges is removed for further treatment at other facilities. MIRA now wants to procure a lime treatment facility based on the Orsa method (adding burnt lime to the dewatered sludge) which can provide a stabilised and hygienic sludge for use on agricultural land in the region.

**II.1.5. Estimated total value**

Value excluding VAT: 5 000 000,00 NOK

**II.1.6. Information about lots**

This contract is divided into lots: no

**II.2. Description****II.2.2. Additional CPV code(s)**

45000000 Construction work

**II.2.3. Place of performance**

NUTS code: NO01 Oslo og Akershus

NUTS code: NO Norge

Main site or place of performance: Tangen RA (treatment facility).

**II.2.4. Description of the procurement**

The contracting authority hereby calls for tenders for the contract 'B1 – bygg, VVS og bygg-elektro' (B1— buildings, HVAC and sanitary installations and electrical installations) for the project 'Slammottak og kalkbehandlingsanlegg for slam ved Tangen renseanlegg' (Resection of sludge and a lime treatment facility for sludge at Tangen treatment facility).

The Tanegen treatment facility at Sørumsand is a biological-chemical treatment plant that receives sewage water from Sørum, Fet and Gjerdrum municipalities. The facility has a capacity for 64 000 PE and is currently connected to 29 000 PE. The treatment facility has no processes for the stabilisation and hygienisation of sludge, and the sludge which is dewatered in centrifuges is removed for further treatment at other facilities. MIRA now wants to procure a lime treatment facility based on the Orsa method (adding burnt lime to the dewatered sludge) which can provide a stabilised and hygienic sludge for use on agricultural land in the region.

This lime treatment plant must have the capacity to process all the dewatered sludge from the Tangen treatment plant and the dewatered sludge delivered from Nittedal, Enebakk and Aurskog-Høland municipalities. The external sludge is delivered in sealed containers that are transported by trucks with trailers that have two containers per delivery (trucks with trailers). In order to facilitate this, a reception facility for dewatered sludge from these municipalities shall also be established, and a scheme will be established for transporting both external and

internal sludge to the lime treatment plant. The lime-treated sludge should be fed to existing sludge containers that will be used for storage to achieve adequate hygienic time. This contract (Contract B1) includes the execution of the building, HVAC and sanitary installations and building electrical installations to supplement the processing/machinery delivery that has already been contracted. The tenderer is fully responsible for the functioning and compliance with the specified requirements of the contract. There will also be work that the tenderer carries out outside the construction site such as engineering design services, procurements and pre-fabrication. See chapter seven for further details on the requirements. The project has a very tight progress plan and must be concluded.

**II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

**II.2.6. Estimated value**

Value excluding VAT: 5 000 000,00 NOK

**II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months: 2

This contract is subject to renewal: no

**II.2.9. Information about the limits on the number of candidates to be invited**

Envisaged number of candidates: 1

**II.2.10. Information about variants**

Variants will be accepted: no

**II.2.11. Information about options**

Options: no

**II.2.12. Information about electronic catalogues**

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

**II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

**II.2.14. Additional information**

**Section III: Legal, economic, financial and technical information**

---

**III.1. Conditions for participation**

**III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

See the tender documentation.

**III.1.2. Economic and financial standing**

List and brief description of selection criteria:

See the tender documentation.

Minimum level(s) of standards possibly required:

See the tender documentation.

### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

See the tender documentation.

Minimum level(s) of standards possibly required:

See the tender documentation.

### **III.2. Conditions related to the contract**

#### **III.2.2. Contract performance conditions**

See the tender documentation.

#### **III.2.3. Information about staff responsible for the performance of the contract**

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Competitive procedure with negotiation

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue**

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

#### **IV.1.5. Information about negotiation**

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: no

### **IV.2. Administrative information**

#### **IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 11/05/2020 Local time: 12:00

#### **IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

#### **IV.2.4. Languages in which tenders or requests to participate may be submitted**

German, English, Norwegian, Swedish

#### **IV.2.6. Minimum time frame during which the tenderer must maintain the tender**

Tender must be valid until: 11/08/2020

## **Section VI: Complementary information**

---

### **VI.1. Information about recurrence**

This is a recurrent procurement: no

### **VI.2. Information about electronic workflows**

Electronic ordering will be used

Electronic invoicing will be accepted  
Electronic payment will be used

**VI.3. Additional information**

See the tender documentation.

**VI.4. Procedures for review**

**VI.4.1. Review body**
