2. Procedure

2.1. Procedure

Title: Provision of the Services for Geospatial and Imagery Analysis and Intelligence consultancy

Description: The main goal of this procurement procedure is to establish multiple framework contracts enabling an efficient provision of services for GIS/GEOINT and IMINT consultancy under Time and Means conditions. The intended minimum number of contractors under this FWCs shall be three (3) and maximum five (5). The framework contracts resulting from this tender will be a source of services for the following areas (not exhaustively listed) Geographic Information Systems GIS consultancy shall be understood as professional expertise in mapping & modelling geospatial data into layers of information and visualize it using maps and GIS web applications. GIS promotes the discovering of patterns and relationships, between geospatial data empowering the decision making cycles. - Geospatial intelligence consultancy Geospatial intelligence consultancy shall be understood as professional expertise in geospatial intelligence data collection, preparation, analysis & interpretation as well as dissemination of high quality products derived from these processes. - Imagery intelligence consultancy IMINT consultancy shall be understood as professional expertise in geospatial and imagery intelligence data collection, preparation, analysis & interpretation as well as dissemination of high quality products derived from these processes. The services will be executed by Contractor's personnel in Time and Means mode, on-site (intra muros), on the basis of Specific Contracts implementing the Framework Contract. The mechanism applied for awarding specific contracts implementing framework contracts is the reopening of competition.
