I.4. Type of the contracting authority

Other type: Municipal

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Transport of Hook Lift Containers

Reference number: 21055

II.1.2. Main CPV code

90512000 Refuse transport services

II.1.3. Type of contract

Services

II.1.4. Short description

The contest concerns transport of residual waste and other waste fractions from the region by hook lift vehicle to final treatment, as well as internal transport by hook lift vehicle between the environmental stations in the region. The total number of tonnes of waste to be removed per year is estimated to be approx. 8 600 tonne. Distribution according to attached form 21055 Transport of waste. The service employs between two and three heavy goods vehicles, the contracting authority reserves the right to change the delivery locations of the different waste fractions during the contract period. See point 1.1.1 for a description of the participants in the procurement. The procurement is estimated to be over the EEA threshold value. The estimated value is not binding for the contracting authority. The value of the procurement is approx. NOK 5 million annually. The volume can be both higher and lower, and will depend on, amongst other things, the contracting authority's needs, activities, budgetary situation and other framework factors in the contract period. See the procurement documents for further information.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

90510000 Refuse disposal and treatment

II.2.3. Place of performance

NUTS code: NO020 Innlandet

II.2.4. Description of the procurement

Sub-tenders/groups: The tenderer must submit offers in both groups. Sub-tenders and alternative tenders cannot be submitted for individual groups, nor alternative tenders. If the contracting authority chooses to carry out the internal transport itself, a contract will be awarded in group 1. If the tenderer will carry out both removal transport and internal transport, the contracting authority will award a contract in group 2. The contracting authority will select the alternative that gives the best quality and price after a combined evaluation. The final decision is made upon award.

Group 1: Transport of residual waste and other waste fractions from the region by hook lift vehicle. If the contracting authority selects to carry out internal transport itself.

Group 2: Tenderers must give a combined tender for both transport of residual waste and other waste fractions from the region by hook lift vehicle and internal transport by hook lift vehicle between the environmental stations in the region. Contract NS9430 The procurement will be regulated by the attached contract as long as it suits the transport service. The contract has a duration from and including 1 January 2022 until and including 31 December 2025 with a unilateral right for NGR to cancel the contract with 12 months notice. A contract will be entered into for either group 1 or group 2. The contracting authority will sign a contract with one (1) supplier. Contract provisions: The contract conditions will be regulated by NS 9430: 2013 with Construction Form and the attached Contract Terms — changes and supplementation to NS9430:2013. The tender documentation annex is part of the contract documentation. Tenderers must familiarise themselves with all the contract terms.

Construction form 9430 must be used. The following has been decided:

— Point 2 first paragraph: the delivery is regulated by this contract and the following Appendix:

- 1) Tender documentation and needs description;
- 2) Competition Clause;

3) The tenderer's offer;

4) NS9430 (not attached)

— Point 3: Alt. 2: the assignment concerns transport of residual waste and other waste fraction from the region by hook lift vehicle and internal transport by hook lift vehicle between the environmental stations in the region. Collection locations and delivery locations can change during the contract period. New price will be calculated based on the price per kilometre. If the contract for incineration waste finishes before 31 December 2025, this can lead to the driving distance changing for residual waste and bulky waste. The tenderer must be aware that it can lead to the necessity for more vehicles to handle the assignment.

— Point 7: 4 years with commencement 1 January 2022.

— Point 11.1: NOK 1 million.

— Point 11.2: Alt. 2: The contracting authority does not provide security.

— Point 12: Alt. 1: The tenderer has liability insurance.

— Point 13: Concerning point 11.1 — Security requirement equivalent to NOK 1 million. This amounts to 20 % of the contract value. Price regulation: The agreed prices/price changing mechanisms are binding. The prices are fixed for one year from the date of contract commencement. Price increase can then only take place once a year up to 12 535. The total cost index for lorry transport, excl. ferry and toll costs. The calculation will use the average index from the last year. Changes in the exchange rate will not lead to contract price changes. The contracting authority expects that the tenderer is familiar with the contract provisions and makes the necessary internal clarifications in such a way that a contract can be signed if awarded.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/01/2022 End: 31/12/2025

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tax and VAT certificate: Tenderers must have orderly Tax and VAT payments (ESPD: Part II A.e). Documentation requirement: Requirement for certificate of paid VAT, tax and social

security contribution. A certificate issued by the competent authority in the tenderer's country, confirming that the tenderer has met the obligations in regard to payment of VAT, tax and social security contributions in the country where the tenderer/contractor has its headquarters the (Norwegian certificate for Tax and VAT is combined and ordered from altinn.no, RF-1507, previously RF-1244) in accordance with the legislation in the country. The certificate must not be more than 6 months old. Other economic and financial requirements: Economic and financial standing. Requirements regarding the tenderer's economic and financial standing: The financial capacity to fulfil the contract is required (ESPD: Part IV B.58-3). Documentation: The contracting authority will assess finances through the company and accounting information system Proff Forvalt (www.forvalt.no). The contracting authority reserves the right to obtain supplementary information about the tenderer's finances. Any need for support from other companies in order to fulfil this qualification requirement. If the tenderer is dependent on other companies in order to fulfil this qualification requirement, the required documentation for this must be presented. The contracting authority retains the right to collect supplementary information, bank guarantees or similar.

Section IV: Procedure

IV.1. Description
