38221000 Geographic information systems (GIS or equivalent), 72314000 Data collection and collation services, 72316000 Data analysis services, 72300000 Data services, 72310000 Data-processing services, 72311100 Data conversion services

II.2.3. Place of performance

NUTS code: PL911 Miasto Warszawa

II.2.4. Description of the procurement

The main goal of this procurement procedure is to establish multiple framework contracts enabling an efficient provision of services for GIS/GEOINT and IMINT consultancy under time and means conditions. The intended minimum number of FWCs is three (3) and maximum is six (6).

The framework contracts resulting from this tender will be a source of services for the following areas (not exhaustively listed):

- geographic information systems.

GIS consultancy shall be understood as professional expertise in mapping and modelling geospatial data into layers of information and visualise it using maps and GIS web applications. GIS promotes the discovering of patterns and relationships, between geospatial data empowering the decision making cycles.

- geospatial intelligence consultancy.

Geospatial intelligence consultancy shall be understood as professional expertise in geospatial intelligence data collection, preparation, analysis and interpretation as well as dissemination of high quality products derived from these processes.

- imagery intelligence consultancy.

IMINT consultancy shall be understood as professional expertise in geospatial and imagery intelligence data collection, preparation, analysis and interpretation as well as dissemination of high quality products derived from these processes.

The following examples describe the types of tasks envisaged to be covered by the framework contract (non-exhaustive list):

GIS/GEOINT:

- support to business units with GIS related daily basis tasks;
- management of unclassified/classified geospatial data;
- creation of graphical layouts and content;
- production of technical documentation;
- map and cartographic products creation;
- management of web map applications;
- geospatial analysis;
- development of workflows for management of spatial analysis.

IMINT:

- acquisition tasking;
- imagery interpretation and analysis;
- providing IMINT training.

The services will be executed by contractor's personnel in time and means mode, on-site (intra muros), on the basis of specific contracts implementing the framework contract. The mechanism applied for awarding specific contracts implementing framework contracts is the reopening of competition.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 24
