Works

Main site or place of performance: Greece and Albania.

NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement**II.1.5.**

Short description of the contract or purchase(s)

EPC contract(s) for compressor and metering stations in Greece and Albania. The works comprise the endorsement of the currently existing design engineering, finalization of the outstanding detailed design, procurement of material that is not provided by the contracting entity and construction, testing, pre-commissioning, commissioning and start-up of the Facility including performance test for the complete station(s). There are 2 contracts to be awarded: 1 in Greece and 1 in Albania; TAP may also decide to award one contract for both countries. These works are part of the greater gas transmission projects intended to transport gas from Azerbaijan to Italy and from there into the European gas network.

II.1.6. CPV code(s)

45250000 Construction works for plants, mining and manufacturing and for buildings relating to the oil and gas industry, 45231221 Gas supply mains construction work, 45251000 Construction works for power plants and heating plants, 45255000 Construction work for the oil and gas industry, 45255300 Gas terminal construction work, 45251143 Compressed-air generating plant construction work

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

II.1.8. Information about lots

This contract is divided into lots: yes
Tenders may be submitted for all lots

II.1.9. Information about variants

Variants will be accepted: yes

II.2. Scope of the procurement

II.2.1. Total quantity or scope

II.2.2. Information about options

Options: yes

Description of options: TAP (contracting entity) reserves the right to add some additional options, which will be specified in the Invitation to Tender.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Information about lots

Lot No: 1

Lot title: Greece

1) Short description

Contract for the Engineering, Procurement and Construction (EPC) of
— One compressor station in Greece (GCS00), near Kipoi, with fiscal metering (Section 1).

2) CPV code(s)

45250000 Construction works for plants, mining and manufacturing and for buildings relating to the oil and gas industry, 45231221 Gas supply mains construction work, 45251000 Construction works for power plants and heating plants, 45255000 Construction work for the oil and gas industry, 45255300 Gas terminal construction work, 45251143 Compressed-air generating plant construction work

5) Additional information about lots

A lot is referred to as Section in the PQQ.

Lot No: 2

Lot title: Albania

1) Short description

Contract for the Engineering, Procurement and Construction (EPC) of
— one compressor station in Albania (ACS03), near Fier, with fiscal metering (Section 2a),
— one flow metering station in Albania ACS02), near Bilisht (Section 2b).

2) CPV code(s)

45250000 Construction works for plants, mining and manufacturing and for buildings relating to the oil and gas industry, 45231221 Gas supply mains construction work, 45251000 Construction works for power plants and heating plants, 45255000 Construction work for the oil and gas industry, 45255300 Gas terminal construction work, 45251143 Compressed-air generating plant construction work

5) Additional information about lots

A lot is referred to as Section in the PQQ.

Section 2a and 2b are considered one Lot.

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

9. HSE: The Applicant must provide and confirm the information as set out in the PQQ

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

TAP-PRO-STA-PQQ

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: 16.6.2014

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

2.7.2014 - 12:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

English.

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

VI.3. Additional information

Entities interested in this contract will find additional guidance in the prequalification questionnaire (PQQ) that will be made available upon request (see contact person mentioned in section I.1). TAP (contracting entity) reserves to share further information only with those entities that have requested a copy of the PQQ.

In view of the deadline of submission of expression of interest, interested parties are strongly encouraged to obtain the PQQ as soon as possible.

TAP may decide to limit the number of selected Applicants to a level which is justified by a need to balance the particular characteristics of the Procurement Process with the resources required to conduct it (see PQQ for more detail).

All correspondence related to this procurement process shall be conducted in English. As the works will be performed in Greece and Albania, knowledge of the local language is considered vital.

TAP voluntarily opts to carry out the procurement process in line with the Utilities Directive.

Neither applicants nor third parties derive rights from TAP's decision to voluntarily comply with the (principles of the) Utilities Directive.

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

29.5.2014
