Estimated total value of purchases for the entire duration of the framework agreement

Estimated value excluding VAT

Range: between 3 700 000 and 6 200 000 GBP

II.1.5. Short description of the contract or purchase(s)

Supply of Obstacle Detection at Level Crossings.

This system will protect trains from a catastrophic risk by detecting large objects capable of derailing a train, and protect crossing users by detecting that they are still on a crossing when it is closing or after it has closed.

The product will require to be interfaced with current Network Rail infrastructure and be resilient to electrification systems. It must work in all weathers with minimal maintenance and high reliability. Major structural changes to the current level crossing should be avoided with the solution. High safety integrity level is required with fail safe mode included.

The Obstacle Detection System could be one system or multiple systems in order to meet these requirements.

II.1.6. CPV code(s)

34946000 Railway-track construction materials and supplies
