Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Tenderers must be a legally established company.

Documentation: tenderers registered in the Norwegian Register of Business Enterprises do not need to enclose documentation. The contracting authority will inspect the registration by using the organisation number provided in the tenderer's Merccell profile. For tenderers that are not registered in the above-mentioned register, the tenderer must provide certificates or confirmation of registration (equivalent to a company registration certificate) in a trade register or company register as described in the legislation in the country where the tenderer is established. The certificate must not be issued more than 6 months prior to the tender deadline.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Tenderers must have substantial and relevant experience. The experience must include large deliveries of the products requested in this contest.

Documentation requirement: relevant experience is to be documented by stating a minimum of three (3) and a maximum of five (5) reference projects from the last three (3) years.

Information on this point is to be given in Mercell. Only the first five projects will be assessed if more than five reference projects are listed.

Tenderers must, through their business practice, respect international standards on human rights, employee rights, the environment, animal protection, and anti-corruption in their company and in the supplier chain. Tenderers must actively work and have a system so that goods and services that are delivered according to this contract are produced and distributed under conditions that are in consistent with the contract. The documentation requirement is described in the tender documentation point 5.4. Further information about the qualification requirement 'Controlling and tracking of the supplier chain'.

The contracting authority requires that all tenderers have an established quality management system that is satisfactory to ensure quality in the execution of this contract.

Documentation requirement: a description of the company's implemented quality assurance system. Certificates must be submitted for the company's quality management system, issued by independent bodies, confirming that the company meets specific quality management standards, for example ISO 9001. If the company does not have a certificate, other documentation of the company's quality management system must be presented. In such cases, the following must, as a minimum, be submitted:

- the system's name and a detailed table of contents;
- a general description of the system's contents, including an overview of check plans and check-lists that are relevant for this contract;
- an organisation chart that shows responsibilities in the quality assurance system;
- a description of procedures for internal control and handling deviations (work with corrective and preventive measures);
- a description of how the system will be used to ensure quality in this contract. All submitted or collected documentation will form the basis for an overall evaluation of whether the qualification requirement is fulfilled.

The contracting authority requires tenderers to have certification from independent third parties that confirm that the tenderer has routines and systems that ensure that the execution of the delivery has a low impact on the environment.

Documentation requirement: tenderers must submit certificates from independent bodies that document an established and satisfactory quality management system. Documentation is required stating that the tenderer is environmentally certified in accordance with ISO 14001, is an Environmental Lighthouse company, is certified by EMAS, or is certified by equivalent third parties. If the tender does not have a certificate, other documentation of the tenderer's environmental management system must be presented. In such cases, the following must, as a minimum, be submitted:

- the system's name and a detailed table of contents;
- a general description of the system's contents, including an overview of check plans and check-lists that are relevant for this contract;
- an organisation chart that shows responsibilities in the quality assurance system;
- a description of procedures for internal control and handling deviations (work with corrective and preventive measures);
- a description of how the system will be used to ensure quality in this contract. All submitted or collected documentation will form the basis for an overall evaluation of whether the qualification requirement is fulfilled.
