72000000 IT services: consulting, software development, Internet and support

II.2.3. Place of performance

NUTS code: NO081 Oslo

Main site or place of performance: Oslo

II.2.4. Description of the procurement

The Government has decided that a joint ICT service will be established for the ministries, including the Ministry of Foreign Affairs and the foreign service missions. It has been decided that the underlying directorate Norad will not follow the ministry over to a new joint ministry ICT platform or use the new joint ICT service.

The Ministry of Foreign Affairs currently operates its own ICT platform and provides associated ICT services to its own business and Norad. Norad does not have its own ICT unit and receives all infrastructure and platform services, equipment services and the Service Desk from the Ministry of Foreign Affairs' ICT section. Some user-friendly SaaS services, the subject system Tilskuddsportalen and Norad's websites are purchased and administered by Norad itself. The digital platform provided by the Ministry of Foreign Affairs consists partly of "on-prem" services and partly of Microsoft 365 and Azure cloud-based services. The latter is delivered in a joint tenant including for the Ministry of Foreign Affairs and Norad. The change means that Norad must establish its own ICT platform, acquire new supplier (s) of ICT services and study and establish its own internal roles in order to manage its own ICT services. Technically, the services in the joint MS 365 tenant will be re-established in a separate tenant only for Norad. This includes services such as Azure AD, M365 (SaaS) and Azure (PaaS). In addition, there will be solutions for the services Norad currently uses on the "on-premise" part of the Foreign Ministry's platform. It has been decided that a project will be established for this work and Norad now needs an experienced project manager to play an important role as leader of this work. The consultant will lead the project for the establishment

of Norad's new ICT platform. The project manager has the responsibility and authority to lead the project team and deliver the necessary products within the time and cost limits defined by the client. Further information about the assignment is in the tender document

II.2.5. Award criteria

Criteria below

Quality criterion - Name: Relevant experience / Weighting: 70 %

Price - Weighting: 30 %

II.2.6. Estimated value

Value excluding VAT: 4 700 000,00 NOK

no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Legally established company

The tenderer must enclose a company certificate or register printout (sole proprietorship) from the Register of Legal Entities.

Tax certificates

Norwegian providers must submit a tax certificate for tax, employer's contribution and value added tax (form RF-1316). The tax certificates must not be older than 6 months from the expiry of the offer deadline.

Foreign providers must submit corresponding tax certificates from their countries.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Economic and financial capacity

The tenderer must have sufficient financial and financial capacity to be able to fulfill the contract.

This is documented by the presentation of the company's latest / 2/3 annual accounts. If the supplier has valid reasons for not being able to submit this documentation, the supplier may "prove his economic and financial position with any other document that the client deems suitable", this in accordance with the Public Procurement Regulations § 16-4 (2).

Minimum level(s) of standards possibly required:

The tenderer must have sufficient financial and financial capacity to be able to fulfill the contract.

The supplier must have an annual minimum turnover, including an annual minimum turnover within the area to which the contract applies. The requirement is twice the size of the assignment.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Technical and professional capacity

The tenderer must have sufficient technical and professional capacity to be able to fulfill the contract.

- The company's most important deliveries in the last 3 years, including their value, time and recipient (if necessary to ensure sufficient competition, ie because the relevant services are not purchased as much and so often, so that there will be a limited number of suppliers who has experience from the last 3 years, the period of 3 years can be extended).
- Overview of the company's average workforce
- A description of personnel and units that the supplier has at its disposal to carry out the contract, including education and professional qualifications.
- Requirements for quality assurance system. (It can be stated that the supplier is required to submit certificates from independent bodies as documentation that the supplier meets certain quality assurance standards (eg ISO 9001). However, Norad must always accept other documentation for similar quality assurance measures. Do not set too strict requirements for quality assurance systems that exclude small desired suppliers).

Minimum level(s) of standards possibly required:

The tenderer must have sufficient technical and professional capacity to be able to fulfill the contract.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

Non Disclosure Agreement

Please note that personnel who are to carry out the assignment must sign the enclosed declaration of confidentiality before they can start work. This will be done in connection with the client signing a contract with the selected supplier.

III.2.3. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure
