The contracting authority is purchasing on behalf of other contracting authorities: no

**Section II: Object of the contract**

---

**II.1. Description****II.1.1. Title**

Aberdeen Heat and Power – Gas and Electricity Supply Contract (inc. sale of exported electricity).

**II.1.2. Type of contract and place of performance or delivery**

Supplies

Purchase

Main site or place of performance: Aberdeen Heat and Power Company Limited sites located in Scotland.

NUTS code UKM Scotland

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**

The procurement involves the establishment of a framework agreement

**II.1.4. Short description of the contract or purchase(s)**

Aberdeen Heat and Power Company Limited is seeking to establish a framework in order to call off contract(s) for the following:

Lot 1: The purchase of electricity through an export arrangement for a minimum 12-month period commencing 1.11.2014 from Aberdeen Heat and Power Company Limited's three sites. The minimum period may be subject to extension with the successful supplier by Aberdeen Heat & Power Company Limited as it deems necessary within the context of the proposed framework agreement.

Aberdeen Heat & Power Company Limited may alternatively seek to undertake further mini-competition(s) upon the conclusion of this minimum period under the proposed framework agreement with a view to sourcing an alternative supplier to that which is awarded the contract for the initial minimum 12 month period.

The approximate forecast annual export for the aforementioned 12-month period is 16 000 000 kWh.

Lot 2: The provision of electricity supplies to Aberdeen Heat & Power Company Limited's three sites for a minimum 12-month period commencing 1.11.2014.

The minimum period may be subject to extension with the successful supplier by Aberdeen Heat & Power Company Limited as it deems necessary within the context of the proposed framework agreement.

Aberdeen Heat & Power Company Limited may alternatively seek to undertake further mini-competition(s) upon the conclusion of this minimum period under the proposed framework agreement with a view to sourcing an alternative supplier to that which is awarded the contract for the initial minimum 12 month period.

The approximate forecast consumption for the aforementioned 12-month period is 124 000 kWh.

Lot 3: The provision of gas supplies to Aberdeen Heat and Power Company Limited's three sites for a minimum 12-month period commencing 1.11.2014.

The minimum period may be subject to extension with the successful supplier by Aberdeen Heat and Power Company Limited as it deems necessary within the context of the proposed framework agreement.

Aberdeen Heat & Power Company Limited may alternatively seek to undertake further mini-competition(s) upon the conclusion of this minimum period under the proposed framework agreement with a view to sourcing an alternative supplier to that which is awarded the contract for the initial minimum 12 month period.

The approximate forecast consumption for the aforementioned 12-month period is 58 000 000 kWh.

Please note that Aberdeen Heat and Power will consider integrating Lot 1 and Lot 2 into a single contractual arrangement should supplier responses justify such an action.

Please note that Aberdeen Heat and Power will consider integrating Lot 1, Lot 2 and Lot 3 into a single contractual arrangement should supplier responses justify such an action.

Aberdeen Heat and Power (AHP) Ltd is a not for profit organisation which was set up by Aberdeen City Council to develop and operate district heating and CHP (Combined Heat and Power) schemes to deliver heat to primarily flatted properties and public buildings.

AHP is a community conscious organisation and has a priority of supplying heat to hundreds of residents in the Aberdeen area- setup with the prime purpose to reduce fuel poverty, but also to reduce their carbon footprint. The scheme has been developed since 2002.

AHP have 3 sites currently, although additional site(s) are planned for its portfolio.

Each site currently consists of a gas powered engine and generator with standby boilers. Heat from the gas engine is used to heat the local district heating network while generated electricity is primarily exported, although a small portion is used for boiler and pumping services. At times when the generator is off, line electricity is imported for these services.

## **II.1.5. CPV code(s)**

09121000 Coal gas, mains gas or similar gases, 09310000 Electricity

## **II.1.6. Information about the Government Procurement Agreement (GPA)**

### **II.2. Total value of the contract/lot**

#### **II.2.1. Total value of the contract/lot**

Value: 0,00 GBP  
excluding VAT

## **Section IV: Procedure**

---

### **IV.1. Type of procedure**

#### **IV.1.1. Type of procedure**

Accelerated restricted

### **IV.2. Award criteria**

#### **IV.2.1. Award criteria**

The most economically advantageous tender in terms of

1. Lot 1: Electricity Export (as per the criteria and weightings presented in the ITT). Weighting 100
2. Lot 2: Electricity Import (as per the criteria and weightings presented in the ITT). Weighting 100
3. Lot 3: Gas Import (as per the criteria and weightings presented in the ITT). Weighting 100

#### **IV.2.2. Information about electronic auction**

### **IV.3. Administrative information**

#### **IV.3.1. File reference number attributed by the contracting authority**

#### **IV.3.2. Previous publication concerning this procedure**

##### **Contract notice**

Notice number in the OJ S: [2014/S 57-094713](#) of 21.3.2014
