Telemetry equipment. The Neurophysiology Department at Kings provides a diagnostic service for Neurosciences and a wide range of specialities within the Trust as well as for other hospitals across SE London and Kent. EEGs (Electroencephalograms) and EEG video telemetry make up a large proportion of this diagnostic activity. Requests for EEGs from the acute specialities, particularly adult and paediatric critical care have been steadily growing over the last 2 years.

The Trust is seeking expressions of interest for a framework agreement that will enable us to purchase this type of equipment. This will be a replacement programme for Portable Telemetry recorders and EEG equipment, potential suppliers will need to provide equipment which will have the ability to integrate with the hospital Electronic Patient Record (EPR) system, and to include clinical support, training and technical support.
