**Section II: Object of the contract**

---

**II.1. Description****II.1.1. Title**

Framework agreement for electrician services.

**II.1.2. Type of contract and place of performance or delivery**

Works

Execution

Main site or place of performance: Ringerike kommune.

NUTS code NO032 Buskerud

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**

The procurement involves the establishment of a framework agreement

**II.1.4. Short description of the contract or purchase(s)**

Ringerike municipality invites tenderers to a tender contest for electrician services and the delivery of material for executed projects.

The contract is for the provision of electrician services in accordance with the attached specifications. The framework agreement also includes minor engineering design services, execution and the necessary material for carrying out the service.

The work, both within execution and engineering design, can be of moderate difficulty. Errors

and shortcomings can lead to moderate consequences for health, safety and the environment. Tenderers are only allowed to submit tenders for the entire contract. The municipality aims to enter into a contract with the 3 tenderers who score best in the award criteria, as long as the competition allows this. The framework agreements will be ranked in prioritised order in accordance with the award criteria. When there is a need for resources, Ringerike municipality will request assistance in accordance with the contract. Call-offs will primarily be made from the company ranked as number 1.

If the request cannot be met by this company, the call-off will be made from the next company in the ranking, and equivalently from the next company, if none of the 1<sup>st</sup> 2 can cover the need.

The framework agreement is mainly meant to cover the municipality's requirements in the agreement period. When larger orders are placed, of such nature that they can be defined as separate projects, the municipality reserves the right to obtain separate tenders thereof. The municipality also reserves the right to try other products/news from other suppliers if this is lacking in the agreement supplier's assortment.

The contract is for areas owned by the municipality and their companies, including, but not limited to:

- Administration buildings;
- Schools/before-and-after-school care;
- Nurseries;
- Nursing homes, old peoples home and rehabilitation centres;
- Houses;
- Treatment facilities and pump stations.

The contract can also be used in full by Ringerike Church Council.

More information on the procurement process and scope is included in annex no 1 Requirement specification.
