It is the intention of West Hampshire CCG to commission a new integrated EUPCS that is tailored to the localities of West Hampshire and easy to access from a patient perspective — providing choice of routine and urgent primary care appointments during weekday evenings and at weekends. This new integrated service will replace the current “Primary Care Centre” element of the West Hampshire GP Out of Hours (OOH) service. It will also build on the development of extended access to primary care services across West Hampshire CCG that are currently being delivered beyond core general practice opening hours funded by the GP Forward View (GPFV) access funding.
