2.1. Procedure

Title: Qualification - Witness system for the fertility clinic at OUS

Description: The procurement is for the delivery and installation of an electronic witness system (EWS) for the Reproduction Medical Department at Oslo University Hospital. The electronic witness system shall ensure accurate identification, tracing and handling of patients and biological material throughout the entire course of treatment. The system shall include functionality for automatic RFID recognition/identification, error notification and logging. The system must be able to be integrated with the journal system (Dips Arena) and possibly Unilab Lims system. We would like a framework agreement for consumables in addition to the system system. See the attached provisional requirement specifications for further details on the required functionality.
