III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

See draft contract attached to the tender specifications.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

A joint tender is a situation where a tender is submitted by a group of economic operators (consortium). Joint tenders may include subcontractors in addition to the joint tenderers. In the case of a joint tender, all economic operators in a joint tender assume joint and several liability towards the contracting authority for the performance of the contract as a whole. These economic operators shall designate one of them to act as leader with full authority to bind the grouping or the consortium and each of its members. It shall be responsible for the receipt and processing of payments for members of the grouping, for managing the service administration and for coordination. The composition and constitution of the grouping or consortium, and the allocation of the scope of tasks amongst the members, shall not be altered without the prior written consent of the Commission.

The tenderers should indicate in their offer whether the partnership takes the form of:

- a) a new or existing legal entity which will sign the contract with the Commission in case of award; or
- b) a group of partners not constituting a new legal entity, who via a power of attorney, signed by an authorised representative of each partner (except the lead partner), designate one of the partners as lead partner, and mandate him as lead contractor to sign the contract with the Commission in case of award.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: • The tenderer's identification form in Annex 1 of the tender specifications shall be filled in and signed by:

- the tenderer (including any member of a consortium or grouping),
- subcontractor(s) whose share of the work represents more than 20 % of the contract.
 - In order to prove their legal capacity and their status, all tenderers (including any member of a consortium or grouping) must provide a signed legal entity form with its supporting evidence. The form is available on: http://ec.europa.eu/budget/contracts_grants/info_contracts/legal_entities/legal_entities_en.cfm

Tenderers that are already registered in the contracting authority's accounting system (i.e. they have already been direct contractors) must provide the form but are not obliged to provide the supporting evidence.

- If it has not been included with the legal entity form, tenderers must provide the following information:
 - for legal persons, a legible copy of the notice of appointment of the persons authorised to represent the tenderer in dealings with third parties and in legal proceedings, or a copy of the publication of such appointment if the legislation which applies to the legal entity concerned requires such publication. Any delegation of this authorisation to another representative not indicated in the official appointment must be evidenced,
 - for natural persons, where applicable, a proof of registration on a professional or trade register or any other official document showing the registration number.
 - The tenderer (only the leader in the case of a joint tender) must provide a financial identification form and supporting documents. The form is available on: http://ec.europa.eu/budget/contracts_grants/info_contracts/index_en.cfm

III.2.2. Economic and financial ability

List and brief description of conditions: In order to prove their economic and financial capacity, the tenderer (i.e. in case of joint tender, the combined capacity of all members of the consortium) must comply with the following criterion:

— turnover of the last 2 financial years above 200 000 EUR.

The following evidence should be provided:

- copy of the profit & loss account for the last 2 years for which accounts have been closed,
- failing that, appropriate statements from banks,
- if applicable, evidence of professional risk indemnity insurance.

If, for some exceptional reason which the contracting authority considers justified, a tenderer is unable to provide one or other of the above documents, he or she may prove his or her economic and financial capacity by any other document which the contracting authority considers appropriate. In any case, the contracting authority must at least be notified of the exceptional reason and its justification in the tender. The Commission reserves the right to request any other document enabling it to verify the tenderer's economic and financial capacity.

III.2.3. Technical and professional ability

List and brief description of conditions:

a. Criteria relating to tenderers:

Tenderers (in the case of a joint tender the combined capacity of all tenderers) must comply with the following criteria:

- the tenderer must prove experience in the fields of occupational radiation protection, individual radiation monitoring, radiation dosimetry, in particular internal dosimetry, and metrology with at least 1 project delivered in this field in the last 3 years with a minimum value of 50 000 EUR,
- the tenderer must prove capacity to draft reports in English,
- the tenderer must prove experience with projects delivered in the last 3 years, which involved the analysis of regulations, technical guidance and recommendations in the area of internal dosimetry,
- the tenderer must prove experience in drafting reports and technical recommendations,
- the tenderer must demonstrate experience in organising meetings.

b. Criteria relating to the team delivering the service:

The team delivering the service should include, as a minimum, the following profiles:

• a project leader, who will meet the following requirements:

- professional qualifications in radiation protection, in particular in occupational radiation protection, and radiation dosimetry, in particular internal dosimetry,
- minimum 5 years of professional experience with radiation protection regulations, occupational radiation protection, individual radiation monitoring, radiation dosimetry, in particular internal dosimetry, and metrology, after obtaining their professional qualification,

- minimum 5 years of professional experience with radiation protection regulations, occupational radiation protection, individual radiation monitoring, radiation dosimetry, in particular internal dosimetry, and metrology, after obtaining their professional qualification.

c. Evidence:

The following evidence should be provided to fulfil the above criteria:

- list of relevant services provided in the past 3 years, with sums, dates and recipients, public or private. The most important services shall be accompanied by certificates of satisfactory

execution, specifying that they have been carried out in a professional manner and have been fully completed;

— the educational and professional qualifications of the project and task leaders and the persons who will provide the most relevant tasks for this tender (CVs). Each CV provided should indicate the intended function in the delivery of the service,

— a reference to the team and the task leaders' publications on radiation dosimetry, in particular internal dosimetry, in peer-reviewed scientific journals.
