Dose Banded and Patient Specific Doses of Systemic Anti-Cancer Treatments (SACT)

Reference number: DN406495

II.1.2. Main CPV code

85149000 Pharmacy services

II.1.3. Type of contract

Supplies

II.1.4. Short description

The Trust is the cancer centre for North East London and provides a medical and haematological oncology service including bone marrow transplantation. The chemotherapy pharmacy department has a licensed chemotherapy production unit, providing over 45 000 doses of systemic anti-cancer treatments (SACT) per year.

Demand for the provision of SACT has been rising consistently year on year. As such the department has developed a strategy to meet this demand and ensure that patient treatment requirements can be met. This strategy includes maximising efficiency of our existing production capacity by outsourcing doses that can be manufactured externally, to quality standards and that will be safe for the patient.

The outsourced doses will be purchased in the form of both ready made dose banded products and patient specific doses.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: UK United Kingdom
