2.1. Procedure

Title: Purchase of powerbank

Description: The power bank with trailer will function as a mobile power supply for electric vehicles, machinery and equipment at construction sites. For vehicles, machinery and equipment with combustion engines, we currently use a mobile fuel tank that can deliver fuel on-site when needed. As we transition to electric vehicles, machinery and equipment, we need to replace this solution with a mobile power supply. We will procure one new power bank including trailer now, with an option for an additional unit with the same specifications. The supplier must provide a price for the option in the tender.

5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: The tenderer shall be a legally established company.

Documentation requirements: * Norwegian companies: Company Registration Certificate. NB:

The contracting authority will obtain company registration certificates from the brreg.no *

Foreign companies: Proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

Criterion: Other economic or financial requirements

Description of selection criterion: The tenderer must have the financial capacity to carry out the contract. Documentation requirements: * Credit evaluation/rating, not older than 3 months, based on the last known fiscal figures. NB: The contracting authority will obtain a credit rating from CreditSafe.

Criterion: Measures for ensuring quality

Description of selection criterion: Tenderers shall have quality assurance measures suited to the content of the contract. Documentation requirements: * A description of the tenderer's quality assurance measures. If a tenderer is certified iht. ISO 9001 or equivalent quality assurance standards, it is sufficient to present a copy of a valid certificate.

Criterion: Supply chain management

Description of selection criterion: Tenderers shall be suitable to fulfil the contractual requirements for due diligence assessments for responsible businesses at the latest from 6 months after the contract has been signed. This means that the Tenderer has implemented measures and systems that are used in the Tenderer's work to safeguard basic human rights and decent working conditions, as well as to prevent environmental degradation and corruption. Documentation requirements: The following will be delivered by the chosen tenderer before signing the contract: A description of the tenderer's systems for working with due diligence assessments in accordance with the UN's guiding principles for business and human rights (UNGP) and OECD guidelines for multinational companies. The documentation shall include: * Formal policies/policies that cover an obligation to comply with the requirements of responsible businesses.

Criterion:

Type: Quality

Description: The aim of this procurement is to reduce transport emissions in Oslo by using electric power banks. There are, therefore, absolute requirements for the environment for both the product and for transport in connection with delivery and service. The power banks shall be electric, and the supplier shall only use vehicles that are either zero emission vehicles (100 percent electric or hydrogen) or biogas vehicles that at least fulfil Euro class 6/VI. This applies for the last transport route, also referred to as "last mile", for delivery and for any service assignments. Due to these contract requirements, we will not have an environment as a separate award criteria in the competition. After an overall assessment we believe that further environmental criteria will not add value, as environmental considerations have already been taken care of through the requirements for product and transport. This is in accordance with the Public Procurement Regulations (FOA) § 7-9, which allows for exceptions from the obligation to weight the environment when consideration is taken care of by other requirements that will give a better environmental effect than if the tenderer, for example, can choose to offer as environmentally friendly transport as the minimum requirement.
