Value of all contracts awarded in this notice: 3 000 000,00 EUR

Direct award

:

Justification for direct award: Specific exclusions for service contracts

Other justification: The original Service Contract was signed with Expertise France following a negotiated procedure with direct award justified by the public nature of the entity and the institutional nature of the activities proposed (capacity building in partner governments and related stakeholders, improvement of strategic trade controls). The present Addendum is also to be signed under negotiated procedure as the additional budget is over 50% of the original budget. The direct award is justified by the public nature of the technical cooperation agency and the institutional nature of the activities proposed (capacity building in partner governments and related stakeholders, improvement of strategic trade controls). The choice of the Addendum to an existing contract is also justified by the implementing entity's specific, technical expertise it brings to this action. It is an entity with well-known experience and a high-level track record in the area dual-use trade controls capacity building
