II.1.4. Short description

IDA launched its website using Drupal 7 more than six years ago. With more than 1 500 entries and usage peaks of 15 000 monthly active users and 900 daily active users, IDA's website is the organisation's face to the world. The website, in its current form, is limited in its ability to engage IDA's audience. To meet the needs of the audience that IDA currently has, as

well as the broader communities that IDA has started to work with, the IDA website needs to showcase transparent and effective communication that enables it to network widely and communicate effectively.

As a non-profit organisation relying on funding from institutional donors it is critical that we comply with security industry standards. In order to ensure acceptable levels of security and maintainability, the website must migrate to Drupal 9 before Drupal 7's end of support in November 2023.

II.2.4. Description of the procurement

The International Disability Alliance (IDA) is an alliance of eight global and six regional organisations of persons with disabilities. We advocate at the UN for a more inclusive global environment for persons with disabilities and their organisations. The Convention on the Rights of Persons with Disabilities (CRPD) is our touchstone. We are invested in ensuring that the 2030 Agenda and the Sustainable Development Goals are inclusive and in line with CRPD. We support organisations of persons with disabilities worldwide to take part in UN and international human rights processes and use international accountability mechanisms. With member organisations globally, IDA represents the estimated one billion people worldwide with disabilities. This is the world's largest and most frequently overlooked marginalised group. As a non-profit organisation relying on funding from institutional donors it is critical that we comply with security industry standards. In order to ensure acceptable levels of security and maintainability, the website must migrate to Drupal 9 before Drupal 7's end of support in November 2023. While we understand that the migration will require fixing incompatibilities, we expect the updated website to offer the same functionalities as the current version. IDA's website in its current state stores information and intellectual property that is critical to our organisation. For this reason, losing any content would be unacceptable. To address this risk, IDA intends to keep an offline archive of the website in its current state. This archive should be accessible and browsable by IDA staff if/when needed. As part of this engagement, you will also be helping IDA create 10-20 pages for a "landing website" and you will be required to provide the hosting, maintenance, and support of the website on an ongoing basis.
