Tenderers are required to have a legally established company.

Company Registration Certificate, Alternatively a StartBANK ID. Foreign companies are required to have a corresponding certificate as prescribed by the laws of the country where the business is registered.

Economic and financial capacity

Tenderers are required to have satisfactory economic and financial implementation ability.

Statsbygg will carry out a credit rating of tenderers.

Tenderers must also submit:

Auditor approved Annual Financial Statements for the last 3 years, alternatively StartBANK ID.

A signed and completed self-declaration on economic and financial implementation ability, see Annex 3.

Statsbygg retains the right to carry out a supplier audit of the tenderer.

Any supplier audit will take place in the form of the tenderer's permanent auditor being asked to carry out agreed agreed control procedures.

Please provide contact information for the tenderer's permanent auditor.

Ability to handle security graded information.

Throughout the entire project implementation, including the interaction phase, construction phase and test phase, the tenderers must have the ability to process and maintain shield-worthy (security graded) information in the scope and the degree established for the contract work. Central functions at the contractor and sub-contractor must be able to fulfil the requirement of Norwegian security clearance.

A signed and completed "self-declaration on security", see Annex 4. If information is available about the tenderers and/or their sub-contractors, that gives the Contracting Authority grounds to believe that the qualification requirement will not be fulfilled, this may result in the tender offer being rejected. In such a case further documentation can be requested from the tenderer and/or the directorate of public construction and property itself will obtain further information.

III.2.3. Technical and/or professional capacity

Criteria regarding the technical and/or professional ability of subcontractors (that may lead to their rejection)

List and brief description of conditions:

Professional, technical and organisational qualifications part 1.

The tenderer is required to have the necessary professional and organisational qualifications to implement the assignment.

An overview of the tenderer's business must be delivered in the form of an organisational chart, as well as an account of the company's personnel resource in relation to capacity and competence in order to safeguard:

- administration and management in the contract's different phases,
- procurement of systems, materials, sub-contractors etc.,
- construction site logistics and coordination.

The report on personnel resources must take into account the requirement for Norwegian security clearance, cf. the qualification requirement above regarding "ability to handle security graded information".

Professional, technical and organisational qualifications, Part 2.

Tenderers are required to have sufficient experience from assignments with a transferable value to this project.

A brief description (up to approx. 5 A4 pages per project) must be submitted of up to 5 reference projects, with justified comparable value (projects older than 5-year may be given weight), with information on, amongst other things:

- the project name and location,
- Contracting Authority,
 - the project's size in m² and total cost,
- contract value of the assignment,
- what type of contract (partnering contract, execution contract, turnkey contract, etc.),
- ground conditions and foundations,
- the tenderer's assignments and role in the project,
- an account of how BIM was used in the project,
- the start-up date and completion date (year)/if not completed — what stage the project is in.

VI.3. Additional information

KORO and art in Statsbygg's projects.

In all government construction projects, a proportion of the construction costs is allocated to art in accordance with the Royal Decree of 5.9.1997. Statsbygg will receive art grants which will be made available for Art in Public Spaces (KORO – formerly the Public Art Fund). KORO will then become responsible for delivery of the art projects in Statsbygg's construction projects. The tenderer that is awarded the contract will be obliged to carry out works for KORO or the artist relating to public art for this construction project. KORO and the artist will be able to place orders subject to the same conditions as Statsbygg can place supplementary orders under in accordance with the contract. Work relating to the public art project will be ordered in writing by KORO or the artist, in accordance with an established template. Orders will be placed on behalf of and at the risk of KORO and Statsbygg will not be liable in any way.
