I.4.

Type of the contracting authority

National or federal agency/office

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Database for Foreign Direct Investment (FDI) Screening purposes

Reference number: VN/10808/2022

II.1.2. Main CPV code

72000000 IT services: consulting, software development, Internet and support

II.1.3. Type of contract

Services

II.1.4. Short description

The target of the procurement is to acquire a database that provides specific services for Foreign Direct Investment (FDI) Screening purposes in particular for finding, searching, and comparing information of private companies as well as other entities from globally available sources to the widest extent. In addition, the service provider should be able to filter the requested information conveniently for the aforementioned FDI Screening purposes and any other specific needs of the Finnish authorities. The search history including searches done by the authorities shall be kept not only confidential but also anonymous.

The data acquired would be based on companies and other entities' constantly updated data deriving from a wide range of globally available sources that collect data and other information in relation to ownership structures as well as business registers.

Furthermore, the acquired database needs to link and compile various information regarding ownership chains, structures, global corporate relations, and information about the company's possible connections to political bodies or sanctions lists. Availability of the critical information such as the above mentioned or any other critical information concerning a company is considered an asset for the database.

A general requirement for the database is to provide a holistic and reliable picture of a company including their real ownership chains on a global scale. Additionally, the service provider ideally meets all of the requirements set by the FDI Screening process as stated in the FDI Screening Regulation by the EU. The links between Global Ownership information, any other company data related to M&A activities, PEP's, patents, and other relevant ownership information should be visible and conveniently available within the service.

The aim of the procurement is to provide a platform for all the organizations. The needs of the organizations vary thus some of them will need more optional functions within the platform.

The exact content and of platform and the above-mentioned optional functions shall be determined later in the procurement process.

In the case that the service provided develops further services related to the database during the contract period, these shall be available to the contract parties without a new procurement process.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: FI Suomi / Finland

II.2.4. Description of the procurement

Please see section II.1.4 "Short description" for more details.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 27/09/2022

This contract is subject to renewal: yes

Description of renewals:

The contract will be valid for a fixed period, after which the contract will continue for the time being with the notice periods specified in the contract.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 1Maximum number: 3Objective criteria for choosing the limited number of candidates:

The tender competition will be implemented as a competitive negotiation procedure. The contract authorities have selected competitive negotiated procedure in the procurement.

The number of candidates is limited due to the competitive negotiated procedure. Conducting of negotiations with an unlimited number of candidates would significantly complicate the tender process.

A maximum of three (3) candidates will be invited to the negotiations. If there are less than three (3) suitable candidates, the contracting authorities may continue the procedure by inviting all candidates who meet the eligibility criteria to submit the preliminary tender.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Competitive dialogue

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 23/05/2022 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

Finnish, English

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 6 (from the date stated for receipt of tender)

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

The contract has not been divided into lots since the subject matter is considered to form a logical entity which can not be divided into lots due to technical and economical reasons.
