Norway – Locksmith services – Framework agreement locks and fittings

OJ S 63/2026 31/03/2026

Contract or concession award notice – standard regime

Services

1. Buyer

1.1. Buyer

Official name: Oslo kommune v/ Vann- og avløpsetaten

Email: postmottak@vav.oslo.kommune.no

Legal type of the buyer: Public undertaking

Activity of the contracting entity: Water-related activities

2. Procedure

2.1. Procedure

Title: Framework agreement locks and fittings

Description: The current framework agreement for locks and fittings expires during 2026.

There is a need for a tenderer who can see to service, error recovery, engineering design, installation and disassembly of locks and fittings. This applies to the agency's screening worthy and not screened installations. The maximum value of the framework agreement is NOK 53,000,000. The expected annual consumption on the framework agreement is NOK 100,000,000 excluding VAT. 6 000 000. A framework agreement shall be signed with one tenderer for the assignment. The contracting authority reserves the right to enter into contracts with other tenderers, where the Contracting Authority deems this appropriate. The use of sub-suppliers (UL) shall be clarified with VAV for safety reasons. Use of UL is only relevant in case of exemptions, for example large projects. The use of UL shall be approved by the contracting authority. A security agreement shall be signed with UL, and UL's personnel shall be authorised.

Procedure identifier: ff2f623c-53e6-49bf-9ac9-7f4322bdc3c5

Previous notice: fd535426-6c93-4587-af82-3b88b936e35c-01

Internal identifier: 4377

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: There is an objective justification for cancelling the procurement procedure. The need to carry out the procurement has lapsed, as Økonomi- og forvaltningsetaten (OKF) is planning the procurement of a joint purchasing agreement that will cover the needs that Vann- og avløpsetaten (VAV) has put out to competition in this procurement. The entities of Oslo kommune are obligated to make purchases under the municipality's joint purchasing agreements within the areas covered by these agreements. OKF is responsible for entering into cross-sector framework agreements (joint purchasing agreements). VAV is therefore obligated to use the joint purchasing agreement, as it is intended to cover VAV's needs. The joint purchasing agreement is planned to be put out to competition during the spring of 2026. An RFI (market survey) with Doffin reference 2026-102196 has been announced in connection with the planning of the joint purchasing agreement.

2.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 98395000 Locksmith services

Additional classification (cpv): 51000000 Installation services (except software), 51100000 Installation services of electrical and mechanical equipment, 44523200 Mountings, 44520000 Locks, keys and hinges, 44523000 Hinges, mountings and fittings, 45421100 Installation of doors and windows and related components, 45421160 Ironmongery work, 44521100 Locks, 44521000 Miscellaneous padlocks and locks

2.1.2. Place of performance

Country subdivision (NUTS): Oslo (NO081)

Country: Norway

2.1.3. Value

Estimated value excluding VAT: 53 000 000,00 NOK

Maximum value of the framework agreement: 53 000 000,00 NOK

2.1.4. General information

Call for competition is terminated

Legal basis:

Directive 2014/25/EU

5. Lot

5.1. Lot: LOT-0001

5.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 98395000 Locksmith services

Additional classification (cpv): 51000000 Installation services (except software), 51100000 Installation services of electrical and mechanical equipment, 44523200 Mountings, 44520000 Locks, keys and hinges, 44523000 Hinges, mountings and fittings, 45421100 Installation of doors and windows and related components, 45421160 Ironmongery work, 44521100 Locks, 44521000 Miscellaneous padlocks and locks

5.1.2. Place of performance

Country subdivision (NUTS): Oslo (NO081)

Country: Norway

5.1.3. Estimated duration

Duration: 84 Months

5.1.4. Renewal

Maximum renewals: 1

Other information about renewals: Two years. The contract will be valid for 5 years from when the contract is signed. The contracting authority has the option to extend the contract for a further two years on verbatim terms. The total possible contract length is 7 years. The contracting authority can terminate the agreement unconditionally and unilaterally with 6 months notice.

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.10. Award criteria

Criterion:

Type: Price

Description: The award will only be based on which tender has the lowest weighted total sum.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 100

Criterion:

Type: Quality

Description: The contracting authority has a duty in accordance with the Public Procurement Act § 5 to adapt its procurement practice so that it contributes to reducing harmful environmental impact and to promote climate-friendly systems when relevant. It follows from the Utilities Regulations § 7-9 that the contracting authority as a starting point should weight climate and environmental considerations with a minimum of thirty percent. The minimum requirements in this procurement are in accordance with Oslo municipality's standard climate and environmental requirements for transport. It has been estimated that this will have a better climate and environmental effect than evaluating the environment under the award criteria, as this ensures reduction of greenhouse gas emissions in the contract period so that the desired environmental effect is achieved. Beyond the requirement for zero emission transport, it is not considered appropriate to evaluate the environment connected to the actual implementation of the contract, i.e. the goods in themselves and the installation of them. The relevant products are mostly off-the-shelf products that are considered inappropriate to evaluate on. It is also not relevant to evaluate the environmentally friendly installation method of the goods, as this is carried out manually with hand-held equipment. This activity does not carry an environmental footprint. Documentation shall be enclosed in the contract that tenderers that are covered by the waste regulations § 7-5 at the latest when the contract is signed, shall present documentation demonstrating that membership in one of the recycling companies for packaging approved by the Norwegian Environment Agency. Furthermore, tenderers are required to have a satisfactory management system for environments suitable for the nature and scope of the contract. After this, the conclusion is that the procurement's climate and environmental footprint is best taken care of by setting contract requirements for emission free transport. The contracting authority will not evaluate the environment under the award criteria.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 0

5.1.15. Techniques

Framework agreement:

Framework agreement, without reopening of competition

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Oslo tingrett

Organisation providing additional information about the procurement procedure: Oslo kommune v/ Vann- og avløpsetaten

Organisation providing more information on the review procedures: Oslo kommune v/ Vann- og avløpsetaten

6. Results

6.1. Result lot identifier: LOT-0001

Winner selection status: No winner was chosen and the competition is closed.

The reason why a winner was not chosen: Other

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders submitted electronically

Number of tenders or requests to participate received: 2
