- Replace the existing control system at Tverrlia Waterworks and automatise the additions of chlorine and marble. The work also includes mapping, disassembly, and removal of the existing automation boards that are to be upgraded.
- Changing the existing communication system at 15 outstations. Including the water tower, measuring manhole, filter system, and pressure increasing stations from radio to a mobile network system.
- Redundant communication mobile network system for Tverrlia Waterworks and Hukkelberget.
- Replacing the PLS in Hukkelberg water tower.
- Replacing the actuators and valves in Tverrlia Waterworks.
