I.6. Main activity

Port-related activities

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Procurement — Turnkey Contract, Quays Flatholmen North ÅRH, 2021

Reference number: 21/2637

II.1.2. Main CPV code

45241000 Harbour construction works

II.1.3. Type of contract

Works

II.1.4. Short description

The Port Authorities for the Ålesund Region is in the process of preparing a large area that will be used for container management as well as other goods. There is also a need for quays as a lot of the goods are transported by boat. The construction site is in the existing port area at Flatholmen, Ålesund Municipality.

II.1.5. Estimated total value

Value excluding VAT: 200 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45241100 Quay construction work

II.2.3. Place of performance

NUTS code: NO0A3 Møre og Romsdal

Main site or place of performance: Flatholmen, Ålesund Municipality.

II.2.4. Description of the procurement

The Port Authorities for the Ålesund Region is in the process of preparing a large area that will be used for container management as well as other goods. There is also a need for quays as a lot of the goods are transported by boat. The construction site is in the existing port area at Flatholmen, Ålesund Municipality.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/08/2021 End: 01/08/2025

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The price offer must include the cost of constructing all three requested quays (north, east, and south). All the quays must be priced separately and independently of each other.

Emphasis is put on the fact that the east and south quays are options that can be taken up together or separately, if the Contracting Authority finds it appropriate.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tax and VAT certificates

Documentation requirement:

For Norwegian tenderers:

Subsequent to the submission of the tender, the tenderer must give consent for Tendsign to obtain and the Contracting Authority to receive information about the above-named via TendSign. After tenderers have submitted their tender in TendSign, they will receive a request from Altinn for consent to share the tax information.

The consent is valid on an organisation level and is valid for three (3) months. If a tenderer does not give consent, the tenderer must attach a tax and VAT certificate. The certificate must not be older than 6 (six) months from the tender deadline. Any arrears or other irregularities must be justified. (Tenderers can obtain the electronic tax and VAT certificate themselves and immediately receive it by email.)

Foreign tenderers: tenderers who are not established in Norway shall submit equivalent documentation issued by the authorities in the country where the tenderer is established. The certificate shall preferably be translated to Norwegian, but it will also be accepted in Swedish, Danish and English.

Credit rating

Documentation requirement:

The Contracting Authority will carry out an assessment of the tenderer's finances through the company and accounting information system Bisnode AS (www.soliditet.no/creditcontrol) with the service CreditPro.

The Contracting Authority will not accept credit ratings from business and account information systems other than Bisnode AS with the service CreditPro in order to ensure an equal assessment of all tenderers.

Tenderers can attach other necessary information in the tender offer if the tenderer believes that Bisnode/CreditPro does not provide a correct picture of the economic situation.

Newly established companies: Newly established companies that have not built up a basis for credit rating must enclose a declaration from a bank or similar financing institution regarding the company's financial and economic position.

This also applies to foreign tenderers.

Minimum level(s) of standards possibly required:

Tax and VAT certificates

Requirement: tenderers must have their tax, employer contributions and VAT payments in order in accordance with the legal provisions.

Credit rating

Requirement:

The financial capacity to carry out the contract is required. Tenderers are required as a minimum to be credit worthy, A in accordance with Bisnode AS with the service CreditPro, or have the economic capacity to fulfil the contract based on the Contracting Authority's assessments in regard to the submitted documentation from the tenderer. Newly established companies must have the financial capacity to implement the agreement.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Quality management system.

Documentation requirement:

A description of the tenderer's routines and measures for quality assurance (maximum 1 A4 page, the table of contents will not be accepted). If a tenderer is certified in accordance with ISO 9001, or equivalent quality assurance certification, and this is described in the certification, it is sufficient to provide a copy of a valid certificate. Tenderers must state where in the certification the requirement is met.

Experience and expertise

Documentation requirement: the excel spreadsheet 'experience and competence — the tenderer's references' must be completed. For each reference assignment, information must be provided on the assignment's content, value, dates, the Contracting Authority, and a contact person at the Contracting Authority, with an email address and telephone number. In addition, documentation must be given of the relevant competence of key personnel.

Central certification or equivalent.

The executing contractor is required to have central certification or the key personnel are required to have documented competence and experience as stated in the building application Regulations (SAK10) chapter 11, section 11-3 or equivalent for: discipline: applicant, engineering designer, and executor.

Development class: 2

Minimum level(s) of standards possibly required:

Quality management system.

Requirement: tenderers must have a quality assurance system that is suitable for the delivery and the risk involved.

Experience and expertise

Requirement:

The tenderer, or the tenderer's employees are required to have experience from at least one equivalent assignment in the last 10 years. Equivalent assignment means a turnkey contract for the construction of quay installations in concrete (piling) and minimum 100 m length.

In addition, the key personnel that will be included in the project management for the project are required to have satisfactory and relevant competence. Relevant competence means that, as a minimum, the project manager has participated in quay development project(s) (size more than 100 m), either as project manager or as a participant in the project group.

Central certification or equivalent.

Documentation of central certification or other documentation that the requirement is fulfilled.

Section IV: Procedure

IV.1. Description
