Tenders or requests to participate must be submitted to the abovementioned address

### **I.4. Type of the contracting authority**

Ministry or any other national or federal authority, including their regional or local subdivisions

### **I.5. Main activity**

Health

## **Section II: Object**

---

### **II.1. Scope of the procurement**

#### **II.1.1. Title**

Electronic Health Record (EHR) System

Reference number: ST17-PO52

#### **II.1.2. Main CPV code**

48814400 Clinical information system

#### **II.1.3. Type of contract**

Services

#### **II.1.4. Short description**

Enterprise-wide single Electronic Health Record solution for Guy's and St Thomas' NHS Foundation Trust, with the option to subsequently scale up and include King's College Hospital NHS Foundation Trust and/or Royal Brompton and Harefield NHS Foundation Trust on the same instance during the term of the agreement.

#### **II.1.5. Estimated total value**

Value excluding VAT: 175 000 000,00 GBP

#### **II.1.6. Information about lots**

This contract is divided into lots: no

### **II.2. Description**

#### **II.2.3. Place of performance**

NUTS code: UKI London

Main site or place of performance: LONDON.

#### **II.2.4. Description of the procurement**

The purpose of this procurement is to implement a enterprise-wide single Electronic Health Record solution for Guy's and St Thomas' NHS Foundation Trust (estimated user base 16 000), with the option to subsequently scale up the system solution to include King's College Hospital NHS Foundation Trust (estimated user base 15 000) and/or Royal Brompton and Harefield NHS Foundation Trust (estimated user base 4 000) during the term of the agreement. The main contracting arrangements will also need to include GP direct access to

the EHR solution for the local Clinical Commissioning Groups linked to the Contracting Authorities.

The Contracting Authorities application portfolio consists of disparate number of clinical systems that are used to track a patient through their care pathway. Individually, these systems are well-established and used by staff as the primary application for their purpose. However, collectively the core applications provide differing capabilities in support of the day-to-day clinical and operational processes, which results in data not being integrated and managed as a single dataset. This requires effort and cost to integrate views of data from different sources, additional time to view 'longitudinal' data about a patient through several applications, and in some cases manual re-entry by front line clinical staff of data captured elsewhere. For further information relating to this tender opportunity, bidders must access the full documentation set within the Delta Tenderbox. Please follow the instructions within this notice.

#### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### **II.2.6. Estimated value**

Value excluding VAT: 175 000 000,00 GBP

#### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months: 120

This contract is subject to renewal: yes

Description of renewals:

Option to extend the contract for a further 60 months.

#### **II.2.9. Information about the limits on the number of candidates to be invited**

Envisaged minimum number: 3 Maximum number: 4 Objective criteria for choosing the limited number of candidates:

Criteria detailed in the Supplier Selection Questionnaire (SSQ) available from the Delta Tender Box.

#### **II.2.10. Information about variants**

Variants will be accepted: no

#### **II.2.11. Information about options**

Options: no

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds: no

#### **II.2.14. Additional information**

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.2. Economic and financial standing**

Selection criteria as stated in the procurement documents

### **III.1.3. Technical and professional ability**

Selection criteria as stated in the procurement documents

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Competitive dialogue

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue**

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

### **IV.2. Administrative information**

#### **IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 10/06/2019 Local time: 17:00

#### **IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

Date: 10/07/2019

#### **IV.2.4. Languages in which tenders or requests to participate may be submitted**

English

#### **IV.2.6. Minimum time frame during which the tenderer must maintain the tender**

Duration in months: 9 (from the date stated for receipt of tender)

## **Section VI: Complementary information**

---

### **VI.1. Information about recurrence**

This is a recurrent procurement: no

### **VI.3. Additional information**

1) Optional call off items: in addition to the required core and specialist functionality (refer to information pack) the solution should be capable of extension to provide functionality currently provided by other specialist systems or new functionality. As the contracts for existing systems expire, GSTT may seek to incorporate their functionality into the core electronic health and care record solution rather than replace them directly with new standalone systems. GSTT wish to explore in the procurement process the potential optional replacement of the following: NICU; maternity; children's universal services; dental; ophthalmology; sexual health; population health. Optional call-off items are defined as applications/modules that at this stage the Trust does not believe it will purchase and implement, but wishes to reserve the right to do so. These applications/modules do not have to be part of the single platform but do need to

integrate with it. Bidders should be aware that the optional call-off functional areas are not anticipated as being available at contract signature, however the Trust may want to call these off during the lifetime of the contract.

2) An information pack providing further information is available to bidders on completion and submission of a Non-Disclosure Agreement (NDA) via Delta e-Sourcing.
