Norway – Fleet management, repair and maintenance services – Vehicle administration system with the accompanying services - Stage I

OJ S 64/2026 01/04/2026

Contract or concession notice – standard regime

Services

1. Buyer

1.1. Buyer

Official name: INNLANDET FYLKESKOMMUNE

Email: samand@innlandetfylke.no

Legal type of the buyer: Regional authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Vehicle administration system with the accompanying services - Stage I

Description: The objective of the procurement is to establish a total delivery for vehicle administration which gives the county full overview and control of the fleet, reduces manual processes and operational costs, and supports the transition to a more sustainable and efficient mobility. All needs (today and in the future) that the contracting authority has for the administration and administration of vehicles shall be able to be taken care of through this contract. See the tender documentation for a complete description of the procurement's needs.

Procedure identifier: e3e95fda-906d-4254-b81b-e8e1f28658cd

Internal identifier: 2025/23416

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: no

Main features of the procedure: The system shall include: A cloud based administration system with self-service functions, integrated booking and car sharing. Functionality for follow-up maintenance, periodic inspections, reporting, cost distribution and vehicle economy. Good solutions for key logistics, including a keyless alternative. Access to services such as fuel piling, charging, toll tags, parking, vehicle washing, tyre hotel and workshop, negotiated and administered by the supplier. Facilitating as much as possible automated invoice management with splitting and posting with Visma Enterprise. The system shall be flexible, scaleable and user friendly and it shall contribute to optimising the composition and use of the vehicle fleet based on actual use and future needs, at the same time as safeguarding universal design and secure access management. See the tender documentation for a complete description of the procurement's needs.
